AND G. O. P. DRYS
LEADING IN OHIO

Only One Democratic Candidate of Anti-Saloon League, Davey for Governor, Is Ahead.

850,000 VOTES
CAST IN PRIMARY

Cooper Ahead of Congressman Begg in Republican Governorship Race, Anti-Prohibitionist Poor Third.

By the Associated Press.

COLUMBUS, O., Aug. 15.—Two days—Myers Y. Cooper, Republican, and Congressman Martin L. Davey, Democrat, on the face of complete returns from yesterday's Ohio primary election, will contend for the governorship of this State in November. Both had the support of the Anti-Saloon League.

Cooper and Davey were leading in the gubernatorial race, Cooper by a slight margin on unofficial returns from all but 35 of the 5735 precincts in the State. He led Congressman Begg of Sandusky, his closest rival, by 5589 votes. The vote was: Cooper, 259,258; Begg, 253,669. Edward C. Turner, wet trailed hopelessly third in the Republican governorship race. Begg is a dry but was not supported by the Anti-Saloon League.

In the Democratic race Davey led his nearest opponent, Peter Witt, liberal, by nearly 26,000. The vote in this race showed: Davey, 74,721 and Witt, 53,004. Earl Bloom, another dry, was trailing Witt by nearly 20,000.

The vote of the legislature's selections for the remainder of the Democratic State ticket were running far behind candidates who were not on its preferred list.

The Anti-Saloon League candidates on the Republican ticket were apparently successful. The vote cast in the primary set a record—850,000.

Congressman Theodore E. Burton, Cleveland, had a runaway race for the Republican short term nomination for United States Senator. Graham P. Hunt, Cincinnati, campaigning as a Liberal, and Senator Cyrus Locher, Cleveland, were running a close race for the same nomination on the Democratic ticket. Hunt led by 3400 votes, but the outcome was in doubt.

Senator Locher, appointed by Gov. Denney to fill the unexpired term of the late Senator Frank B. Willis, had declared he would "rather be defeated as a dry than elected as a wet." Hunt is an advocate of repeal of the Volstead act.

Charles V. Truax, State Director of Agriculture, was leading former Congressman George White, Marietta, his closest opponent for the Democratic long term senatorial nomination by 11,000 votes. Senator Simeon D. Fess, was unopposed for re-nomination for the same post on the Republican ticket.

BYRD ANTARCTIC EXPEDITION
COSTS \$855,000, A RECORD
Bills Probably Will Total More Than \$1,000,000 Before He Comes Back.

NEW YORK, Aug. 15.—The Antarctic expedition of Commander Richard E. Byrd, which starts from this port next week, will be the most costly expedition in the history of exploration and may cost \$1,000,000. It is said the cost will be not less than \$855,000.

DANIELS SAYS SOUTH IS SAFE FOR GOV. SMITH

Some Unrest There Over
New Yorker's Stand on
Prohibition, Ex-Secretary
of Navy Says.

HOLDS CONFERENCE WITH NOMINEE

New York Executive Com-
pletes His Acceptance
Speech for Delivery Aug.
22.

By the Associated Press.
ALBANY, N. Y., Aug. 15.—Josephus Daniels, who supported the Glass dry plank at the Houston convention, declared before going into conference with Gov. Smith late today that, while there was some unrest in the South over the presidential nominee's stand on prohibition, he regarded that section as safe for the Democratic column.

Daniels expressed the opinion that Smith had not repudiated the party's platform in his message to the Democratic convention, predicted he would carry North Carolina by a tremendous majority and reiterated he would support the ticket "from constable to President."

"I think Smith will enforce the law," he said, "adding that the people of his State were awaiting with unprecedented interest the Governor's acceptance speech."

Daniels was Secretary of the Navy in Wilson's Cabinet. He is the second dry to call on the nominee this week. Senator Carter Glass of Virginia having conferred with the Governor yesterday.

The Governor was able to put before Glass his completed acceptance speech. It is assumed Glass was particularly interested in his statement on the prohibition question, being one of the dry leaders of the Democratic party.

Although Glass held out at Houston for a prohibition plank pledging the party to enforcement of the Eighteenth Amendment and its supporting legislation, he told the convention the plank left the way open for anyone to advocate modification.

The committee on arrangements for the notification ceremony announced the notification exercises will begin at 7 p. m. (3 p. m. Central standard time) Aug. 22 instead of 7:30, the time previously published. There is no change in the hour at which the radio will tune. It remains 7:30.

No speaking itinerary has been mapped out for the Governor and it is doubtful whether the campaign will actually get under way before Labor Day. In the meantime he has several meetings in New York and New Jersey, but national politics are expected to be avoided in whatever remarks he makes.

Arrangements are being made to handle the largest crowd ever to assemble on the grounds of the State Capitol at the notification ceremony. The stands are in place, but because of the small space only about 2500 persons will have seats. These will include members of the notification and National Committees and other party leaders.

The day after the ceremony, the Governor plans to go to New York remaining there over night before proceeding to Seagrass, N. J., to attend a Democratic rally and to view National Guard troops on Saturday, Aug. 25. It is his intention to remain on the New Jersey coast over the week-end, and perhaps to return to Albany before going to Syracuse.

Beyond the State Fair engagement he has no definite plans. He will attend the fair Thursday, Aug. 20, and deliver a short speech, indoors if possible, to conserve his voice.

Daniels says North Carolina Opposition Is Due to Liquor Law.
NEW YORK, Aug. 15.—Josephus Daniels, former Secretary of the Navy, said here today that opposition to Gov. Smith in North Carolina was due to his prohibition views rather than to "any religious question."

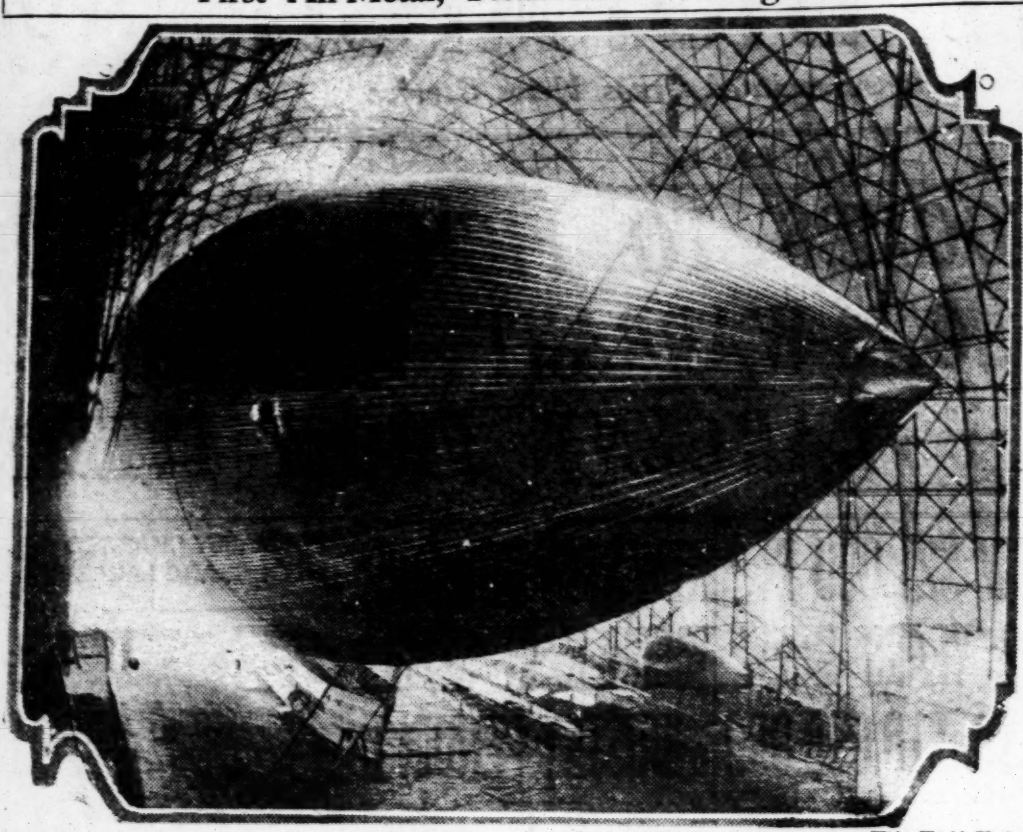

"The people of the State," he asserted, "always have been staunch in their devotion to the religious freedom, and they resent the suggestion that they would vote against a candidate because of his church membership."

"The bulk of what opposition exists is due to the fact that they are not in harmony with what they have understood to be Gov. Smith's views on prohibition. They await with great eagerness his approach speech of acceptance."

Daniels conferred with John J. Raskob, chairman of the National Committee, and Senator Pat of the Southern campaign.

"There is a deep conviction in North Carolina on the prohibition question," said the former Secretary. "The people have a sincere belief in prohibition and a great majority of them will continue to stand for it. They are awaiting this speech of acceptance more than in any previous year, and very much depends upon it."

First All-Metal, Steam-Driven Dirigible

"CITY OF GLENDALE (CAL.)."

It will take the air next month for its first test run. The photograph was taken when the big ship was floated into a hangar for its 40-passenger gondola to be attached before the installation of steam boilers.

BIG OIL CONSOLIDATION RUMORED IN ENGLAND

Heads of Royal Dutch and Near
East Companies and
Others Confer.

By the Associated Press.
LONDON, Aug. 15.—Reports of an impending major consolidation in the petroleum industry are current. The Daily Express says that two outstanding figures in the oil trade, Sir Henri Deterding, director-general of the Royal Dutch Petroleum Co., and Walter G. Teagle, president of the Near East Development Corporation, are sojourning at Anchorage Castle, Invernesshire. A number of other oil magnates, including Sir John Cadman, chairman of the Anglo-Persian Oil Co. and a director of the Suez Canal Co., also have arrived at the castle or are in the neighborhood.

Teagle was asked by the Associated Press whether there was foundation for the reports. He sent the following telegram in reply: "There is no mystery about my being here as one of Sir Henri Deterding's guests for grouse shooting, as I have had the pleasure of being his guest on numerous previous shooting parties while in Europe, just as he has been my guest when in the States, shooting quail with me in Florida."

"Naturally the ramifications of the world's largest industry, namely, petroleum, in which all three of us are interested, affords and will always afford a wide field for conversation."

The Near East Development Corporation is a holding company formed to participate in the development of the Mosul oil concession obtained from the Kingdom of Iraq. Mosul is regarded by oil men as one of the most promising areas for oil development in the world.

The corporation owns 23.75 per cent of the stock of the Turkish Petroleum Corporation which is the company having charge of the development. Two other oil companies reported to be participating in the conferences own 23.75 per cent each. These are the D'Argy Exploration Co., Ltd., representing the Anglo-Persian or British group, and the Anglo-Saxon Petroleum Co., Ltd., a subsidiary of the Royal Dutch-Shell group.

The day after the ceremony, the Governor plans to go to New York remaining there over night before proceeding to Seagrass, N. J., to attend a Democratic rally and to view National Guard troops on Saturday, Aug. 25. It is his intention to remain on the New Jersey coast over the week-end, and perhaps to return to Albany before going to Syracuse.

Beyond the State Fair engagement he has no definite plans. He will attend the fair Thursday, Aug. 20, and deliver a short speech, indoors if possible, to conserve his voice.

MAN'S PLAN TO DEFRAUD BANK OF \$22,500 WITH CHECK FAILS

Detective Arrests Herman Gutting,
Who Says He Found Voucher
and Changed Amount.

By the Associated Press.
ST. LOUIS, Aug. 15.—A crude scheme to defraud the Mercantile Trust Co. with a voucher check which had been raised from \$205.35 to \$22,500.35 was disclosed today when Detective Sergeant Schenk, after waiting in the savings department of the bank since Monday, arrested a man who said he was Herman Gutting, 32 years old, a mechanical engineer, of 4623 Adkins avenue.

Monday the man opened a \$1 savings account in the name of "Rantling Singersoll" and later in the day deposited a voucher of the Missouri Pacific Railroad payable to "Ingersoll-Rand, Inc." on which the amount had been raised \$22,500 and the payee changed to "Singersoll-Randling." It was indorsed "Singersoll, Rantling."

Today Gutting appeared and tried to withdraw a dollar. Police seized him admitted changing the voucher, explaining that he found it in the street.

FINDS SKULL OF HUGE BEAST

Roy Chapman Andrews Reports
Discovery on Asiatic Journey.

By the Associated Press.
PEKING, Aug. 15.—Roy Chapman Andrews, leader of the Fourth Central Asiatic Expedition, returned to Peking today after covering 5000 miles on what he described as one of the most successful trips over the most successful trips over the world's largest industry, namely, petroleum, in which all three of us are interested, affords and will always afford a wide field for conversation."

The Near East Development Corporation is a holding company formed to participate in the development of the Mosul oil concession obtained from the Kingdom of Iraq. Mosul is regarded by oil men as one of the most promising areas for oil development in the world.

Beyond the State Fair engagement he has no definite plans. He will attend the fair Thursday, Aug. 20, and deliver a short speech, indoors if possible, to conserve his voice.

They are awaiting this speech of acceptance more than in any previous year, and very much depends upon it."

TOOMBS INVOLVED IN SHORTAGE IN 1915

Left Winfield, Kan., but Later
Repaid \$7900 He Misused.

By the Associated Press.
WINFIELD, Kan., Aug. 15.—The career of Roy C. Toombs, now being asked to account for \$3,500,000 missing assets of the International Life Insurance Co. of St. Louis, of which he is president, began here.

About 20 years ago Toombs left a farm a few miles south of Winfield and attended the business school of Southwestern College here. When he completed his course he went to Denver, where he got into the abstract business. In a short time he came back here and engaged in the same work with W. V. Williams. The partnership lasted two years.

"He was always reaching out," Williams said today. "I had to fight him all the time to get him to leave queer financial ideas alone."

Toombs quit the firm and took as a partner Robert Webb, now a lawyer at Topeka. The partnership lasted about three years. The Toombs formed a partnership with Grant Stafford, Winfield abstractor. That partnership lasted three days, when Toombs disappeared.

"His ideas and my ideas of high finance did not agree," Mr. Stafford explained.

While in the abstract business Toombs had been lending money. Records show he made loans for friends and relatives, including an uncle, A. W. Blessing. It is said that Toombs assigned the mortgages and himself paid the interest as it came due. Suddenly, Feb. 16, 1915, Toombs disappeared. There was investigation and it was brought out that he was short about \$7900. There were attachments and suits. Toombs later repaid the shortage, it is said, but did not return to Winfield. He went West and later was heard from in Montana. He remained there a few years, then went to Chicago.

A few weeks ago Toombs came back to Winfield for a visit. His mother, whose home is here, returned to Chicago with him, and it is understood she now is in Canada for the summer.

"I do not believe that Roy Toombs was dishonest in his dealings here," said one of his former partners today. "He took chances and wanted to get rich quick."

PROTECTION OF INTERNATIONAL'S POLICIES URGED

State Insurance Commis-
sioners Think This Can
Be Best Done by Accept-
ing Merger Offer.

A plan by which the earnings of policies in the International Life Insurance Co. should be assessed to make up the loss of \$3,562,000 of assets removed by Roy C. Toombs, president of the International, was presented by Massey Wilson, former president of the company, to the group of State insurance commissioners, since their investigation of the company's affairs began.

The commissioners rejected Wilson's plan, as they held that it proposed simply an assessment on the policyholders. The commission heard of the full protection of policyholders and the partial protection of stockholders, a plan of reinsurance through merger of the International with another company.

With their rejection of Wilson's plan, the commissioners supposed it was disposed of. But Wilson went to Kansas City and filed there last Friday the suit under which Federal Judge Reeves named Wilson's brother, Edward P. Wilson, as receiver. It was announced that with E. P. Wilson as receiver, Massey Wilson would operate the company.

When the commissioners conferred Monday night with Judge Kimbrough Stone of the United States Circuit Court of Appeals, at Kansas City, they learned that he had heard of the Wilson plan for assessing the policyholders, and they learned further that Judge Stone had received the impression that the commissioners favored the plan. They assured Judge Stone that they were not in favor of any such plan.

The Missouri State Life Insurance Co. has made a written proposal to the commissioners to pay \$4,000,000 for the assets and business of the International. Under this plan, the Missouri State Life would take over the International's \$25,000,000 of policies, of which \$24,000,000 are on individuals, and the remainder represents group insurance. The Missouri State Life would take over also the International's organization and agencies.

By the Missouri State Life's plan, the policyholders would receive 100 per cent protection. The stockholders would get a return contingent upon the condition of the International's assets and collateral, and the profits of the International's investments over a given future period.

Another reinsurance proposal was submitted by the Kansas City Life Insurance Co. It also guaranteed 100 per cent protection to policyholders, and a contingent return to stockholders.

These reinsurance proposals will be recommended by the State Commissioners to the stockholders, as soon as the latter are at liberty to take action in the company's interest. By the action of the Federal Court in Kansas City last Friday, they are enjoined from taking any action affecting the management of the company.

The commissioners consider it vital to the policyholders' interests that the reinsurance plan be followed, rather than a liquidation of the company's assets through receivership. The latter course, they think, would result in a shrinkage of millions in the company's assets, in inability to pay death claims, and in a partial loss to policyholders.

Warrant Charges Toombs With Larceny

Continued From Page One.

Toombs \$48,000 of stock in the Toombs Trust Co. of Chicago, which is the latest of Toombs' flotations.

The investigators visiting the State Bank and Trust Co., Downers Grove, are E. C. Barclay, assistant financial secretary of the International Life, and Deputy Insurance Commissioner Magee. The commissioners who sent them did not feel sure that they would find the securities sought.

Demand Made for \$100,000.

Another part of their task is to make demand for payment on a \$100,000 time certificate on the Downers Grove Bank. The certificate is for funds deposited from the treasury of the International Life. The surety bond securing the certificate expires tomorrow, and demand for payment of the amount must be made before its expiration.

The two visitors left the Downers Grove Bank at 2 p. m. and did not make known the result of their examination. It was stated that they would return to St. Louis, and that George Toombs, treasurer of the insurance company and brother of its president, would accompany them to St. Louis.

It was learned today that Toombs is thought by the State Bank & Trust Co. of Downers Grove, last Thursday, explaining that he thought the adverse publicity in connection with the insurance company's affairs might damage the bank's standing.

The commissioners are investigating to determine whether or not instances of apparent forgery occurred, besides the signing of McReynolds' name to the bogus stock certificates. McReynolds, as stated, has repudiated his signature.

Toombs is thought by the commissioners to have borrowed between \$50 and \$60 a share on his bogus, or over-issue, stock certificates.

Got Copies of Officers' Signatures.
Dr. E. F. Morgenstern, a vice president of the International Life, who is a handwriting expert, obtained copies of the signatures of all officers of the company when

his connection with the company began, it was learned today. The reason given was that he wished to use the signatures in his character study, it being his specialty to determine character and capacities of individuals from their signatures. He is Toombs' closest adviser.

C. L. Brennaun, secretary-treasurer of the International company (holding company of the International Life Insurance Co.), testified before the prosecuting authorities and Insurance Commissioners that last March he signed and delivered four blank preferred stock certificates to George E. Toombs, then president of the holding corporation, and that no accounting to the company for these certificates, if they were subsequently filled out and sold, had been rendered.

In a written statement of this transaction to E. P. Wilson, Federal receiver, Brennaun said he was called to the office of Roy C. Toombs, president of the insurance company, and in the presence of Roy C. Toombs and George E. Toombs was told by the former that they contemplated selling some preferred stock in the holding corporation to clients in Denver, but at that time did not know the amount he sold or names of the prospective purchasers. Brennaun was requested and did deliver to George C. Toombs the four blank certificates. He was told, according to his statement, that when the sale was effected the certificates would be made valid by the signatures of other officers and the sale turned over to him. He said he frequently asked Roy C. Toombs about the proposed deal, but was put off each time with the statement that the sale had not been consummated.

The latter part of July, Brennaun related, E. G. Geisler, Chicago, then president of the holding corporation, telephoned him concerning the amount of dividend on 5000 shares of preferred stock in the holding corporation, and a few days later Brennaun learned that P. L. Perry of Denver, not a stockholder of record, held a certificate for 5000 shares.

ers and a nearly complete loss to stockholders.

Payroll economies are part of the commissioners' plan for rehabilitation. One of the first salaries they propose to strike from the roll is the \$15,000 a year of Dr. E. F. Morgenstern, vice president, director of personnel, and close adviser to Toombs.

U. S. Judge Reeves to Hear International Life Case Aug. 22.

made out originally to another and transferred to him. Brennaun gave the numbers of the certificates as 3218, 3219, 3220 and 3221, on which an accounting has not been made. Preferred shares of the holding company had a market value of \$6 a share before the receivership.

Perry has informed the Federal receiver that he purchased the certificate of stock from Toombs for \$15,000 cash, and that its number was 3219.

Charged With Removing \$100,000 From Brokerage Firm.
By the Associated Press.
CHICAGO, Aug. 15.—Roy C. Toombs' financial difficulties have almost doubled within a day.

In addition to charges involving \$3,562,000 of missing assets made against him by examiners of the International Insurance Co. of St. Louis, Toombs' Chicago investment firm of Toombs & Daily today is in receivership as a result of allegations that he should account to \$2,000,000 of that company's funds.

Clarence A. Stelle, vice president of the investment concern Toombs & Daily, filed the suit yesterday as a result of Stelle's charge Judge William N. Gemmill of the Superior Court appointing the Federal Trust and Savings Bank as receiver for the firm. Stelle asked the appointment in a petition charging Toombs with fraud in the sale of the assets of the firm.

He declared he was informed that Toombs entered into a scheme in March, 1927, to gain control of the International Insurance Co. of St. Louis, and that, without knowledge of the board of directors of Toombs & Daily, he used his office with the investment firm to further his plans in the insurance company.

In the manipulations necessary to his project, the petition stated, Toombs issued checks amounting to \$100,000, and with the money purchased securities which the firm has never seen. The check withdrawals, said Stelle, exhausted the Toombs & Daily treasury, so the firm cannot now meet its obligations.

Judge Albert L. Reeves of the Federal Court will hold a hearing Aug. 22 in St. Louis on all matters pertaining to the International Life Insurance Co., now under two conflicting receiverships following a shortage of \$3,562,000 in its assets, according to a telegram received last night by Judge Kimbrough Stone of the Federal bench.

Oriental Rug Inquiry Dropped.
By the Associated Press.
WASHINGTON, Aug. 15.—The United States Tariff Commission announced yesterday that with the approval of President Coolidge it had discontinued without prejudice the investigation of the cost of production of Oriental rugs. This investigation was begun in 1925 to ascertain whether the duties prescribed by the tariff act of 1922 equalized production costs in the United States and principal competing countries.

POTTERS, SEEKING MORE PAY, PLAN INDEPENDENT PARLEYS
Manufacturers Declare Wages Should Be Cut to Meet Depressed Conditions.
By the Associated Press.

ATLANTIC CITY, N. J., Aug. 15.—The Brotherhood of Operative Potters today stood prepared to act on a proposal that individual pottery manufacturers, after Oct. 1, deal independently with their own workmen.
The suggestion was made by the labor committee of the United States Pottery Association, with which the brotherhood is meeting here in joint conference, in answer to demands for increased wages by the workmen. Increases of from 2 to 11 per cent were asked for kiln men, plate makers and ware-house men.
Joseph M. Wells of Newell, W. Va., president of the Manufacturers' Association, said the industry was in a depressed condition and that the manufacturers would be justified in asking for a reduction in the wage scale.

Accidentally Shot in Hand.
Clarence Peters, 32 years old, 1223A Clinton street, was shot in the right hand and leg at noon yesterday when a cartridge in an automatic pistol he was cleaning exploded. He was treated at City Hospital.

I'm Staking \$1,000,000.00

That You'll Like this New Kind of Gum
Will you please try a package today?

OTTO Y. SCHNERING

I've Revived that Mouth-Watering, Old-Time Peppermint Flavor You Remember as a Youngster

To the Public:

I'm the man who developed the largest selling 5c candy bar in the world—Baby Ruth.

So I think I know exactly what the sweet tooth of the nation wants.

I'm an expert in flavors. I'm a crank on quality. I spare no cost to make whatever I make the finest that men know.

In my Baby Ruth candy bar, for instance, I use \$1 a pound candy ingredients in its making. Tremendous sales only enable me to sell it at 5c.

Now I'm staking \$1,000,000.00 on an idea . . . on an utterly NEW-TYPE of chewing gum.

As a favor to me, will you please try a package of Baby Ruth Gum today?

I believe you'll find a real surprise in this different NEW-TYPE gum. This is why:

I've Revived That Old-Time Peppermint Flavor

I'm staking my money on the idea that what you want is REAL PEPPERMINT FLAVOR in a gum—that old-time peppermint flavor you remember as a kid.

No other gum today has that flavor.

It costs \$6 a pound to get that kind of peppermint flavor. So, in the rare instances it is used, chewing gum makers use it sparingly.

I've gone to the other extreme. And use it freely. To get the real thing, I have that peppermint grown especially for me.

I believe if you'll taste it, you'll never again go back to less full-flavored gums.

That's why I'm staking \$1,000,000.00 on it.

3 Times Longer Lasting Flavor

That flavor is 3 times longer lasting. Thus it keeps the breath sweet that much longer. It is, too, three times more beneficial on the digestion, doctors tell me.

But those are serious things. The main idea is to taste this gum—not for the way it acts on breath or digestion, but just for the fun of tasting again that Old-Time Peppermint Flavor.

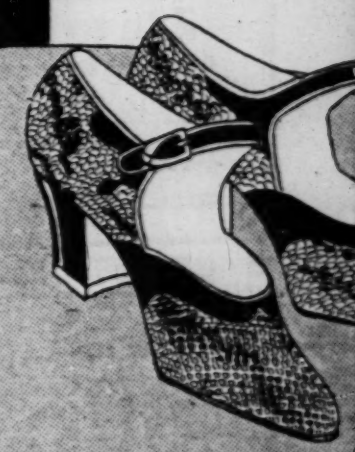

Ask for Baby Ruth Peppermint Gum. In the first store you pass. I believe you'll be glad you tried it.

[Signed] Otto Y. Schnering
President, Curtiss Gum Company

INDICTED FOR KILLING TEACHER IN EVANSTON

Negro Charged With Murder of
Miss Jennie Constance of
Peoria, Ill.

By the Associated Press.

CHICAGO, Aug. 15. — David Shanks, Negro bootblack, who police said confessed killing Miss Jennie M. Constance, Peoria college teacher, was arraigned, bound over to the grand jury and indicted within the space of a few hours yesterday. Prosecutors said they would ask for an early trial and demand his electrocution.

The prisoner was kept under heavy guard while before a crowd of 300 persons, he calmly reenacted yesterday the killing at the scene. Just 10 minutes later Shanks was arraigned and held to the grand jury without bond, charged with first degree murder. A short time later a true bill charging Shanks with murder was voted by a grand jury in a hearing that required only 30 minutes. Miss Constance was head of the English department of Bradley Polytechnic Institute in Peoria. She was attending Northwestern University as a summer student. A week ago last night while en route to her home from the university library she was waylaid and killed. Shanks has been identified as the "Peeping Tom" who annoyed Evanston last February. He recently finished a six months' sentence on charges growing out of one of his "peeping" episodes.

14-YEAR-OLD SOAPBOXER

HELD FOR INCITING A RIOT

Police Break Up Meeting of Workers Communist Party in Philadelphia.

By the Associated Press.

PHILADELPHIA, Aug. 15. — Charges of inciting to riot have been lodged against Benjamin Weiss, 14-year-old school boy, as a result of the street fight which occurred between members of the "Workers Communist party," whom he addressed at an open air meeting, and several hundred bystanders.

Police were sent to the scene last night when several persons complained that seditious remarks were being made by the speakers. On their arrival they heard one of the speakers being heckled by a crowd of unympathetic hearers. At this point Weiss jumped to the platform and made an impassioned speech that started a riot. The meeting was dispersed and Weiss taken to police headquarters. Thomas Pinski, 30, was arrested as chairman of the meeting.

PLAN TO STAIN FINGERS

OF GREEK VOTERS DROPPED

Board Unable to Find Harmless Chemical Whose Mark Cannot Be Removed.

By the Associated Press.

ATHENS, Aug. 15. — The plan to stain the fingers of voters to prevent repeating at the polls has been found impracticable and abandoned. It had been proposed that voters, when casting their ballots, should dip their fingers in a yellow ink which would stain them for three days.

A commission of chemists decided that every harmless chemical stain had an antidote by which it could be removed and that no stains were indelible except dangerous ones.

FEATHERWEIGHT Support and Comfort

In hot summer weather — when the discomfort and restraint of ordinary controlling garments are intolerable — you will find relief and comfort in CHARIS — without sacrificing proper support or a smart appearance.

IN OUR BASEMENT

Extraordinary Bargains in All Depts.

125,000 Four-Page Circulars Have Been Distributed for Thursday, Friday and Saturday Selling

A primary principle of good store keeping is clean stock keeping. With this in view, the merchandise of the passing season... Every department in the store is represented for immediate disposal. Thursday and Friday are the peak value-giving days of the season. Surplus, broken or odd lots and lines, is included. Surely, if prices and quantities are right, the sale will be successful.

All Departments Contribute Unusual Values in This Final Summer Clearance

Not only remnants, but Ready-to-Wear, Children's Wear, Outerwear, Underwear, House Wares, Home Furnishings, Furniture, Rugs and Draperies, Men's Needs, Phonographs, Radios and Accessories, in fact, almost every human need, all cut to the lowest prices of the season. A two-day sale, rain or shine, but the quantities are limited and cannot be guaranteed to last—early selection is advised.

TEXAS REPUBLICANS SELECT NOMINEES

No Primary Will Be Held—
Woman Designated for
Lieutenant-Governor.

By the Associated Press.

FORT WORTH, Tex., Aug. 15.—I. M. Kennerly, attorney of Houston, was designated as the Republican nominee for the United States Senate, at the State convention here. No primary will be held by the Republicans in Texas this year. Kennerly's opponent will be chosen at the Democratic run-off primary, Aug. 25, when Congressman Tom Connally will oppose Senator Earle B. Mayfield, incumbent. In the first Democratic primary Connally ran second to Mayfield.

The Republicans chose W. H. Holmes, independent oil operator of Amarillo and the party candidate for Lieutenant-Governor in 1926, to run against Gov. Dan Moody, Democrat, who is seeking re-election. Mrs. Lena Moore of Cameron County, was nominated for Lieutenant-Governor and will be opposed by Lieutenant-Governor Barry Miller, who was left a clear field on the Democratic side by the withdrawal yesterday of Thomas B. Love of Dallas as candidate for the nomination. Mrs. Moore, a member of the Texas delegation to the Republican national convention at Kansas City, Mo., long been identified with women's political activities in the State. C. O. Harris, San Angelo attorney, was the Republican choice for Attorney-General.

Eugene Nolte of Seguin was re-elected chairman of the State Republican Executive Committee and Orville Bullington of Wichita Falls was chosen vice state chairman.

"Texas Republicans are going to carry this State for Herbert Hoover, co-operating with the good, honest Democrats who are not subsidized by the Tammany Hall Tiger," C. K. McDowell of Del Rio declared in the keynote speech.

Announcement by Love of his withdrawal as a candidate for the Democratic nomination for Lieutenant-Governor marked the exit of the last Democratic aspirant for State office who had taken a stand against the election of the national standard-bearer, Gov. Smith. Other candidates entered in the run-off primary have announced they would vote for Gov. Smith and Mayfield and Connally both have promised to work actively for the presidential nominee.

EQUADOR REPORTS THAT U. S. HAS EXTENDED RECOGNITION

De Facto Government, Established by Military Coup in 1925, Heretofore Ignored.

By the Associated Press. GUAYAQUIL, Ecuador, Aug. 15.—El Telegrafo says that it has been officially communicated to the press that the Washington Government has recognized the Government of Ecuador.

The United States has consistently refused to recognize the de facto government which came into being in Ecuador by a military coup d'etat on July 8, 1925. The Junta of the provisional government, consisting of seven men, was dissolved on April 1, 1926, by the Military Board, which appointed Dr. Isidro Ayora provisional President of the republic with full powers to administer the country. During this lapse from the constitutional provisions for government, Ecuador has had strained relations with both Colombia and Peru in disputes over boundaries.

DAY and NIGHT

HOOVER TO SEE FARM DELEGATIONS IN IOWA

Middle West Representatives to Meet Him in Cedar Rapids, Aug. 23.

By the Associated Press.
CEDAR RAPIDS, Ia., Aug. 15.—Farm delegations will receive close attention from Herbert Hoover when the Republican presidential nominee visits Cedar Rapids Aug. 22 and 23. Harrison E. Spangler, chairman of the local Reception Committee, said in announcing plans approved in Chicago by James W. Good, Western campaign manager.

Labor representatives and newspaper editors throughout the Middle West also have conferences scheduled with Hoover and Republican leaders are to speak at a series of mass meetings here. Hoover is scheduled to arrive here at 9:45 a. m. Aug. 22, the day after his address at West Branch, the candidate's birthplace and boyhood home.

First on the program is the parade of about 10,000 Iowa children which Mr. and Mrs. Hoover are to review at Bruceville, estate of Mrs. G. B. Douglas, where their headquarters will be. Another parade, of an industrial and agriculture nature, on the following afternoon is to include the nominee in the line of march, as well as Gov. John Hammill of Iowa, and a number of Congressmen and Senators.

Iowa farm delegates are to meet from 4 to 5:30 p. m. Aug. 22, with a labor delegation following. Earlier in the afternoon he is to receive editors of agriculture journals and of Iowa daily and weekly papers.

Most of Hoover's program for Aug. 23 is to be devoted to farm deliberations with representatives of Illinois, Indiana, Ohio, Kentucky delegations to be received in the morning and farmers from Missouri, Oklahoma, the Dakotas, Kansas, Michigan, Nebraska and Wisconsin to occupy the afternoon.

Republican rallies, with prominent Republicans as speakers, are planned for both evenings, but Hoover is not expected to attend either. Reports that relatives of Hoover were seeking to buy the little cabin at West Branch in which he was born brought an announcement from Mrs. Jennie Seelers, the owner, that the property is not for sale.

MURDER SUSPECT IS SLAIN

Man Sought in McLoon Killing Shot in Bed in Philadelphia.

By the Associated Press.
PHILADELPHIA, Aug. 15.—What police said they believed to be another chapter in gang warfare in Philadelphia occurred today when they found a man identified as Daniel O'Leary, one of three brothers sought for the killing of Hugh McLoon, shot to death in bed in a rooming house on North Park avenue. He had been shot about 3 a. m. by five men who "jimmied" their way into the house and then forced the door of the man's room on the third floor.

The five men and a girl were seen to leave the house immediately after the shooting. The girl is believed to be the one O'Leary introduced as his wife when he engaged the room last Monday. He gave the name of Daniel Burns. McLoon formerly was a bat boy and mascot for the Philadelphia Athletics. In later years he was proprietor of a cafe. Last Thursday he was shot to death by several men who fired from an automobile.

STIMSON APPOINTS CABINET

By the Associated Press.
MANILA, P. I., Aug. 15.—Governor-General Henry L. Stimson sent to the Philippine Senate the names of his Cabinet appointees yesterday and they were confirmed. The cabinet was chosen from members of the Nationalist party, which carried the last election.

The appointees are: Honorio Ventura, Secretary of the Interior; Miguel Unson Kanson, Secretary of Commerce and Communications; Rafael Alunan, Secretary of Agriculture and Natural Resources; Eugene A. Gilmore, Secretary of Public Instruction, also is a member of the cabinet. He served under the late Governor-General Wood.

Kellogg Likely to Visit Ireland.
WASHINGTON, Aug. 15.—Secretary Kellogg virtually has decided to visit Ireland after signing the 15-Power antiwar treaty in Paris, Aug. 21, in order to return the call of President Cosgrave of the Executive Council of the Irish Free State, made during his visit to this country. It is not unlikely that Kellogg also will visit London.

days in the densely wooded country north of here, and given up for dead, was brought to The Pas today by airplane.
Taylor, who had wandered through the brush living on frogs and fish, was found yesterday by Fred Coleman, Ontario prospector, and Captain Kenyo in the Fokker plane that has been searching for him. His clothing was in tatters and bits of rags had been wrapped around his feet after his shoes had given out. A seven weeks' beard covered his haggard face. He was barely able to walk.

10,000 VIGILANTES
PACIFY BRAZILIAN
DIAMOND FIELDS

Prospectors Who Went on
Warpath After Fraud by
Employers Are Driven In-
to Another State.

By the Associated Press.
RIO JANEIRO, Aug. 15.—Ten thousand vigilantes under Jose Morbeck, who is nicknamed "The Cecil Rhodes of South America," have ended two months of guerrilla warfare in Matto Grosso by driving 2000 disgruntled native diamond prospectors across the border of the State of Guyana.
Reports of the trouble reaching here tell of fights in the jungle and uplands of the rich diamond fields, of night forays, the burning of towns and the wiping out of inhabitants of several communities.
The trouble started when a few found they had been paid in counterfeit money for weeks of prospecting work in the stifling hot jungles. The use of fake money had become a common practice among the irresponsible foreign adventurers who invaded the region, and finally the natives decided to wipe out the boss prospectors.
Homes of Citizens Burned.
A period of lawlessness followed, rivaling the days of old-time American Indian warfare. There was burning of scattered homes and hamlets and massacre of the inhabitants. Prospectors were ambushed and robbery and plain murder were common.
The Governor of Matto Grosso tried to control the situation with State troops, but gave up after several disastrous engagements.
Then Morbeck, uncrowned king of the district, called on his own adherents. Ten thousand rallied to him while the malcontents centered their cause under a bandit chief known as "Carvalhinho," which is the Portuguese name for the sturdy water oak.
Vigilantes Drive Out Bandits.
Morbeck's force was overwhelming, and the bandit's 2000 men were driven into Guyana. There they were given asylum and the right to work in the diamond fields after the Governor had disarmed them and exacted promises of peaceful conduct.

The diamond fields of the two states have been the scenes of "wild West" happenings since 1916, when a German prospector found the first gems in the Araguaia River region. Adventurers of every stripe poured into the fields from all parts of the globe.
They were far from transportation or other contacts with civilization and made their own laws, enforcing them in their own way. If an individual did not like the rules of a camp, he was free to move to another, provided his objections were not expressed to forcibly. In that case he got free burial. The practice of paying natives with counterfeit money grew up among the worst elements of the prospectors.

JAPAN AGAIN REFUSES CHANGE
IN DISPUTED PACT WITH CHINA
Authorities Decline to Listen to Proposals Until Nationalists Acknowledge 1896 Treaty.
By the Associated Press.
TOKIO, Aug. 15.—Although the Government has not received Nanking's second note on the 1896 treaty, Japanese authorities today reiterated their refusal to listen to any Chinese proposals for revision until the Nationalists have acknowledged validity of the existing pact.
Speaking at a cabinet meeting today, Premier Tanaka announced formally his decision to abandon his contemplated plan of issuing a statement reviewing the entire Chinese policy of the Government. The Premier said that owing to postponement of the proposed union of Manchuria with Nanking, peace was insured for the time being in the northern dependency, therefore he considered that the statement was no longer necessary at this time.

SHANGHAI, Aug. 15.—The Nationalist Government sent a second note to Japan regarding the disputed treaty of 1896. The contents were not disclosed officially but it was indicated the note reiterates China's determination to abrogate the pact. The note was handed to the Japanese Consul at Nanking late last night. Today it was transmitted to the Japanese Minister at Peking.

NEW U. S. NOTE TO HONDURAS
By the Associated Press.
TEGUCIGALPA, Honduras, Aug. 15.—A new note from Secretary of State Kellogg, the full text of which has not been made public, but which insists that the boundary dispute with Guatemala be submitted to the Central American International Court, has been bitterly assailed in the Honduran press.
Honduras insists that the problem should be submitted to the President of the United States for arbitration in accordance with an agreement made by the United States five years ago.

SHIP'S ARCTIC SEARCH IN VAIN
Trace of 12 Missing Men.
By the Associated Press.
MOSCOW, Aug. 15.—Capt. Voronin, commander of the Russian icebreaker Sedov, reported by wireless today that he had made a search of Victoria Island, midway

between Northeast Land and Franz Josef Land, without finding any trace of the missing Amundsen group or the six men of the dirigible Italia still unaccounted for. The Sedov has been advancing toward Franz Josef Land to explore that archipelago on the pos-

sibility that the 12 men still lost in the North may have taken refuge there. In the search in the neighborhood of Victoria Island, the airplane carried by the Sedov was not used, as it has no floats which would permit a descent on water.

GOV. PARNELL LEADING IN ARKANSAS PRIMARY

Has Plurality of 12,000 on Returns From Third of State.

By the Associated Press.

LITTLE ROCK, Ark., Aug. 15.—The lead which Gov. Harvey Parnell, candidate to succeed himself, assumed over his six opponents on first returns from yesterday's Democratic primary continued to increase today. Unofficial returns from more than one-third of the precincts in the State gave him a plurality over his nearest opponent of approximately 12,000.

Brooks Hays, 30-year-old attorney, was far in the lead for second place, with Tom J. Terral, former "No-Pardon" Governor, and J. Carroll Cone, State Auditor, contesting for third place. The three other candidates were out of the running.

With 976 out of 2039 precincts reported, the vote stood: Parnell, 26,505; Hays, 12,601; Terral, 12,194; Cone, 10,514.

The ticket was one of the longest ever submitted in the State.

and returns were slow in coming. One Congressman was running behind in his race for renomination and another had a small margin over his opponent.

D. D. Glover was leading James B. Reed, incumbent, in the Sixth District by 1000 votes, while Tillman B. Parks of the Seventh was a few votes ahead of his opponent, Walter Brown. Only a small part of each district was reported, however.

Congressmen W. A. Oldfield of the Second, W. J. Driver of the Fifth and Heartsill Ragon of the Sixth were leading their opponents. Karl Kroenaw was leading Claude Fuller by 700 votes in their contest for the Third District seat, vacated by John N. Tillman.

WILLIAM E. MAY IS DEAD

Hotel Keeper Succumbs After Year's Illness.

William E. May, Republican ward politician of 20 years ago, who later operated a summer hotel at St. Clair, Mo., died last night in a sanitarium at Farmington, Mo. He had suffered from a mental malady for more than a year. He was 56 years old.

Burial services will be Friday morning at 9 o'clock in the undertaking chapel at 1926 Allen avenue. Interment will be in Sunset Cemetery.

He is survived by his widow, Mrs. Rosa May; a daughter, Mrs. Gertrude I. Swoboda; a son, Robert W. May; and his mother, Mrs. Emma May of Maplewood.

STUNT FLYER KILLS SELF AND PASSENGER

Dives to Scare Man in Boat and Plane Plunges Into Ohio River.

By the Associated Press.

TILTONSVILLE, O., Aug. 15.—Two persons, the pilot and a passenger, were drowned near here last night when a sightseeing airplane plunged into the Ohio river. Three other occupants of the ship escaped, two by swimming to shore, August Hauke, 35 years old, Scott Field, Yorkville, O., pilot, and George Giffin, 34, of Kirkwood, O., were those who were drowned.

Joseph Duncan, one of the passengers, said Hauke was stunting when one wing of the plane struck the water and broke off. Duncan, who suffered an injury to his shoulder in breaking a window in the plane after it had fallen, said the pilot swooped to the water in an effort to frighten a man in a boat. When the wing broke, he said the ship immediately became partly submerged.

Duncan was assisted to shore by the boatman, while his son, Harry Duncan, and William Machin of

Bridgeport, O., the other occupants of the plane, swam to shore. The plane was 400 feet in the air when the pilot banked and made for the river, Duncan said.

Residents of the vicinity said Hauke had been carrying passengers all day, and that he had been doing stunts previous to the crash, which occurred shortly before dark.

The river, where the plane plunged, is about a quarter of a mile wide, and the plane struck the water near the West Virginia shore.

Hauke is survived by a widow and daughter.

Two Men Overcome by Heat. Two men were overcome by the heat yesterday afternoon. James E. Arnold, 69 years old, a farmer, 3427 Washington boulevard, collapsed at 1:30 p. m., and was revived.

their second consecutive defeat this after-

The score was 4 to 3.
The St. Louis lineup was changed
all around in an effort to improve
the hitting. O'Rourke was moved
up to the second position and Mc-
Neely, who played right, batted
sixth.

About 4000 fans were present.
The game:
FIRST INNING—BROWNS—
Reeves threw out Blue. O'Rourke
popped to Judge. Manush
grounded to Judge.

WASHINGTON—West singled to
left. Rice singled to right. West
slipped at second. Goslin doubled
to left center, scoring West, while
Rice stopped at third. Gray threw out
Judge. Reeves struck out
Cronin walked, filling the bases.
Harris out, Gray to Kress to Blue.
ONE RUN.

SECOND—BROWNS—Schulte
singled to left. Kress batted a
single over Cronin's head, sending
Schulte to third. McNeely fouled
to Ruel. Melillo singled over
Cronin's head, Schulte scoring and
Kress taking third. Schang flied
to West. Kress scoring after the
catch. Gray struck out. TWO
RUNS.

WASHINGTON—Schulte went
to left center for Ruel's fly. O'Rourke
threw out Braxton. West grounded
to Kress.

THIRD—BROWNS—Blue flied
to Goslin. O'Rourke flied to West.
Manush walked. Schulte doubled
to right, scoring Manush. Kress
grounded to Judge. ONE RUN.

WASHINGTON—McNeely mis-
judged Rice's fly but ran back for
a one-hand catch. Goslin walked.
Judge looped a single to short cen-
ter, sending Goslin to second. Reeves
hit into a double play, Kress to Mel-
lillo to Blue.

FOURTH—BROWNS—McNeely
bounced a single off Braxton's
glove and took second when
Reeves, who recovered the ball,
threw wild past first. Melillo got
a single on a bunt past Braxton.
McNeely going to third. Schang
struck out. Gray hit into a double
play. Braxton to Harris to Judge.

WASHINGTON—Cronin singled
to right. O'Rourke threw out Har-
ris. Cronin taking second. Ruel
doubled down the left field line,
scoring Cronin. Braxton walked.
West lined to Kress when toss to
Melillo doubled Ruel off second.
ONE RUN.

FIFTH—BROWNS—Blue
fouled to Ruel. O'Rourke flied to
West. Manush singled to left.
Schulte singled to right for his
third straight hit. Manush stopping
at second. Kress forced Manush
with a grounder to Reeves.

WASHINGTON—Rice singled
through the box. Goslin doubled
against the scoreboard, sending
Rice to third. Blue picked up
Judge's grounder and beat him to
the bag. Rice scoring the tying
run and Goslin taking third. Reeves
singled to center, scoring Goslin.
Cronin grounded to Blue. Reeves
taking second. Harris flied to Ma-
nush.

SIXTH—BROWNS—McNeely
doubled to left as Goslin missed a
short-top catch. Melillo struck out.
Cronin threw out Schang. McNeely
going to third. Gray flied to Rice.
WASHINGTON—Ruel popped to
Melillo. Braxton fanned. West
sent a long fly to Schulte.

SEVENTH—BROWNS—Braxton
loosed out Blue. O'Rourke ground-
ed to Harris. Manush flied to
Rice.

194 ENTER MUNICIPAL SWIM TO BE HELD TOMORROW

With a record-breaking total of 194 entries, the fifteenth annual swimming meet of the Municipal Athletic Association will be held tomorrow night at the Marquette pool.

The finals will start at 8 o'clock and the preliminaries at 7 o'clock.

Such men stars as Francis Stephens, Eugene Bolden, Homer Heideman, Mill Lohse and R. Brenner, all municipal record holders in their respective events, will participate. Stephens has won the 100-yard free style event for eight straight years. He is representing the New Coliseum A. C. this year.

Mary Wright to Compete.

In the women's events, Mary Wright, Pete Kemp, Arvilla Resler, Marie Rademacher, Nora Fisher and Jean Lane, all well-known local stars, will perform in their specialties.

Miss Fisher, who holds the record in the 50-yard breast stroke for Class B women, will continue her efforts to that single event.

The following organizations are entered: Belleville Turners, Fairground, Lake Hill, Lorelei, North Side Y. M. C. A., Marquette, Mulanphy, New Coliseum A. C., Tower Grove and Sherman Park.

New Coliseum Won in 1927.

Last year the New Coliseum team took the meet when it won a total of 103 points. Lorelei Natatorium was second with 77 and Marquette third with 47.

Owing to the unusually large entry list this season, it was necessary to book several preliminary heats as compared to five last year. There will be 22 racing events, including relays, and three classes of fancy diving, namely, men's, women's and life guards.

A 25-cent admission will be charged.

Order of events:

PRELIMINARIES.

Class A—Boys—25-yard free style, heats No. 1 and 2.

Class A—Boys—25-yard free style, heats No. 1 and 2.

Class B—Men—50-yard free style, heats No. 1 and 2.

Class A—Boys—100-yard free style, heats No. 1 and 2.

Class B—Women—100-yard free style, heats No. 1 and 2.

Class B—Men—50-yard free style, heats No. 1 and 2.

Class B—Men—100-yard free style, heats No. 1 and 2.

Life guard relay.

Class A—Boys—25-yard free style.

Class B—Men—50-yard free style.

Class B—Men—100-yard free style.

Life guard—100-yard free style.

Class B—Women—50-yard breast stroke.

Championship—200-yard breast stroke.

Life guard—100-yard free style.

Class B—Women—50-yard breast stroke.

Championship—200-yard breast stroke.

May's COLUMN

We Have With Us—

ROBERTS HORNSEY and George Siler, who kept St. Louis on the baseball map when all else failed, are with us again and going big—which is more than can be said of the team they are battling for.

Hornsey is leading the league and Siler is in fourth or fifth place, with the fine swat mark of .358 or thereabouts.

It is a strange thing that a club possessing such a remarkable batting punch as this pair affords, can not make more than a bitter dose for Hornsey, that he has not been able to lift his club higher than a few removes from the cellar.

A Financial Kayo.

BUT what is bitter to Hornsey is wormwood itself to the club owners. Playing to empty benches, the club is saddled with a real white elephant.

It is "overhead." To begin with, Hornsey gets \$41,000 and Siler \$20,000—and they are worth it, or would be to a club that was headed somewhere.

Then the club had to pay Slatery's contract when it booted him out and took on Hornsey, the loss there being at least \$10,000.

Armin, one reaction from the Slatery incident will cost the club a small fortune. The Braves Field management had built bleachers in preparation for the football season. Boston College had agreed to book all its games there. One, the annual struggle with Holy Cross, alone represented an annual turnover of \$100,000. But when the Braves canceled Slatery, former Boston College coach, Boston College officials became miffed, took the football contract away from the Braves and gave it to Bob Quinn's park—a loss to the Braves of at least \$25,000 a year more.

Besides these few little deterrents to peace of mind, the owners still have to pay a rather heavy salary roll and a terrific park rental.

Which explains why they join Hornsey in the prevailing gloom.

Chance for Siler.

SILER has a chance—just a chance—to do what only one baseball player in history has ever accomplished—lead each major league in batting.

Besides these few little deterrents to peace of mind, the owners still have to pay a rather heavy salary roll and a terrific park rental.

THREE MATCHES IN WOMEN'S NET DOUBLES TODAY

Ruth Bailey, who represents the Forest Park Tennis Club, yesterday won her way to the quarter-finals of the Women's Municipal tournament when she defeated Wilma Benson, a ranking player from O'Fallon, 6-0, 6-1.

Miss Bailey outplayed her opponent in all phases of the game. Her service and her forehand and backhand drives were working with accuracy.

As a climax to the match Miss Bailey, on match point, served an ace. Miss Benson was not up to her usual game.

Mrs. Violet Furlong, another one of O'Fallon Park's tennis stars, defeated Mrs. Betty Bruster of Forest Park, 6-4, 6-2.

There will be no singles matches today, but three doubles matches on the program should be interesting. The first seeded team, Lottie Hagemeier and Mrs. Mel Baehr will play Mrs. Bruster and Mrs. Brown at 3:30 p. m.

On Thursday three singles matches which give promise of fireworks will be contested. Ruth Bailey, a favorite of the champions, will play Mrs. Violet Furlong, the defending champion, will meet Lottie Hagemeier, recent winner of the Municipal Girls' tournament and Miss Hagemeier of Forest faces Delphine Baehr, from Fairground.

Singles Finals Sunday.

Martin Telle, who is president of the Municipal Tennis Association, announced that the semi-finals both in singles and doubles will be played Saturday afternoon.

HUSBAND UNDER BOND IN DEATH OF WOMAN

John Barnes of Madison, How-
ever, Not Held Responsible
By Coroner's Jury.

John Barnes, 25 years old, a machinist, was held for the grand jury under \$5000 bond at an inquest at Madison last night in the death of his estranged wife, Ethel, 25, whose body was found in her apartment at 606 State street, Madison, early Sunday morning.

The verdict was that Mrs. Barnes died of concussion of the brain and ordered that Barnes be held without charging him in any way with responsibility for her death. A physician, summoned by Barnes at 3:30 a. m., testified he found the body of Mrs. Barnes on a bed. Her face was discolored and one eye was cut, apparently as the result of a beating.

Barnes testified he had an engagement to meet his wife Saturday midnight, and, going to her apartment, found her unconscious on a bed. He had spent the evening, he said, in a bar at Fourth and State streets.

A friend of Mrs. Barnes testified that the slain woman had remarked early in the evening she expected her husband to call and take her to a motion picture show. A policeman said he met Barnes on the street at 1:15 a. m. and that he made no mention of any unusual events.

Mrs. Barnes, who had been married twice before, was married to Barnes a year ago. They separated five months later, since which time

Barnes has been living with his parents at 908 G street, Madison. Mrs. Barnes' funeral will be held today.

Swedish Mine Trouble Settled.

By the Associated Press.

STOCKHOLM, Aug. 15.—Labor trouble in the Swedish mining industry, which seriously affected the export of Swedish iron ore to the Ruhr district in Germany and other steel making centers, has been settled by a compromise which leaves the situation much as it was. Local wage rates will be adjusted and the workers get a slightly longer vacation. The wage adjustments

will be taken up by the Government's Mediation Committee on Aug. 23.

MUECH ASSAILS LACLEDE'S DENIAL OF JURISDICTION

Declares Service Board Can Control Excessive Charges Resulting From Interstate Transactions.

COMPANY BUYS GAS FROM ITSELF

It May Rob Peter to Pay Paul but Can't Lay Extortion on Consumer, Counselor Says in Brief.

By the Jefferson City Correspondent of the Post-Dispatch.
JEFFERSON CITY, Aug. 15.—Interstate purchases of gas by Laclede Gas Light Co. of St. Louis from an allied company in Illinois, said by Laclede company to be beyond jurisdiction of the Missouri Public Service Commission, are subject to control by the commission in so far as they affect rates charged in St. Louis. City Counselor Muech declared in a reply brief filed today, opposing Laclede's proposed gas rate increase.

Muech contended that while the commission had no power to regulate an interstate transaction, it did have the power to disallow any charges to operating expenses, resulting from that transaction, that were excessive and an unreasonable burden upon consumers in Missouri.

In hearings on the proposed higher rates, which would add about \$1,400,000 annually to the bills of gas users in St. Louis, chiefly the domestic consumers, the city contended Laclede was buying gas from the Missouri-Illinois Pipe Line Co. at prices much greater than the cost of manufacturing gas in the Laclede plants. The pipe line company is owned by the same holding company that controls Laclede.

Makes Gas for 21c, Buys for 30c.
The pipe line company, Illinois Central, sells Laclede an oil-still gas that is a byproduct of the refineries at Woodriver, Ill., and this gas is combined with gas manufactured by the Laclede. The oil-still gas has a heat standard of 1150 British thermal units, and is purchased for 40 cents a 1000 cubic feet. The required standard in St. Louis is 600 British thermal units. Average manufacturing costs of Laclede in 1927 were 21.7 cents a 1000 cubic feet of gas.

The city contended these contracts between inter-related companies enabled the owners to make an excessive profit, that was paid by St. Louis consumers through operating expenses of the Laclede company. The company asserted the purchase of the high heat standard gas made possible economies in bringing gas manufactured by the Laclede up to the standard required in St. Louis.

However, the company declared the purchases were transactions in interstate commerce, and therefore beyond the jurisdiction of the Missouri Commission.

Not Interstate Commerce.
"The question involved here is simply the right of the commission to disallow, as operating expenses, purchases made by an operating company to its jurisdiction," Muech stated in his brief.

"There is no regulation of interstate commerce here. The limitation of the operating expenses to be borne by the consumers to an amount that is reasonable and requiring the stockholders to bear the excess does not vitiate any contract for the purchase or sale of a commodity in interstate commerce. If the intermediate selling company wants to rob Peter to pay Paul, that is its business, but this extortion cannot be laid upon the consumer."

Muech said the city was not contending that the commission could prevent the Laclede company from entering any contract for purchase or sale of gas, whether in interstate or intrastate commerce. The city was contending, he said, that in a rate case, such as this the commission could refuse to allow as operating expenses any such purchases to the extent that they are unreasonable or an excessive burden on the consumer.

Thinks Valuation Too High.
The brief filed in reply to one submitted by the Laclede Co. several days ago, also reassured several points raised in the city's main brief in opposition to the rate increase, which was filed Aug. 10. It contended the present valuation of the gas property, fixed by the commission at approximately \$48,800,000, is excessive by \$3,366,000; that the present rates are inadequate, and that 6 per cent would be a fair rate of return, instead of the 8 per cent the company seeks. The present depreciation allowance of 1 per cent of the depreciable property, amounting to about \$275,000 a year, is declared reasonable by the city, and the commission is urged to deny the company's claim for an allowance of \$50,000 a year.

Police Kill 48 Raiding Sudanese.
KHARTOUM, Egyptian Sudan, Aug. 15.—Forty-eight Gaware Nuer tribesmen were killed when their attack on the police post at Duk Fayl was repulsed. They were part of a band of about 1500 who had been raiding villages in the Southern Sudan, not far from the Abyssinian border.

PART THREE.

NOMINEES' WIVES ARE DESCRIBED IN TALKS OVER RADIO

Respective Ability of Mrs. Hoover and Mrs. Smith to Preside Over White House Outlined.

PROGRAM PROVIDED BY WOMEN'S LEAGUE

Both Love Home Life and Are Deeply in Sympathy With Husbands' Political Aspirations.

By the Associated Press.
WASHINGTON, Aug. 15.—Those "who listen in on the 'Voters' Service' program of the National League of Women Voters heard an intimate description over the radio last night of the characteristics of Mrs. Herbert Hoover and Mrs. Alfred E. Smith over the system of the National Broadcasting Co. That of Mrs. Hoover was broadcast by Mrs. John Pratt, member of the New York Board of Aldermen and a candidate for Congress; that of Mrs. Smith by Mrs. Charles Dana Gibson, wife of the illustrator and magazine publisher.

"A home-maker preeminently, yet one whose experience will make of her a great American hostess in the White House," Mrs. Pratt said of Mrs. Hoover.

"Glad Welcome for Friends."
"To be successful as a hostess Americans, of all types, all around the world, will bear witness," Mrs. Pratt said, "that the Hoover home has been a place where the world has been entertained to a minimum."

"We must never forget that a President's wife can help or hinder her husband's success. Her failure to receive an important visitor may make for him, or for his country, an enemy. Through carelessness or through ignorance she may hurt the feelings of a guest at a critical moment, when the relations of two countries—our own and his, are at stake."

"A modern hostess for the nation must be able to talk gaily and with intelligence of world affairs without saying anything incorrect. She must have tact always, in the ordinary sense, which requires world-wide acquaintance with men and affairs."

"Mrs. Gibson stressed the sympathy with which Mrs. Smith has followed the political progress of her husband."

"Al Smith's mother took a natural pride in her gifted son's high office, but far more important than this was the comfort she took in the knowledge that her son and his wife loved each other," Mrs. Gibson said.

"I can never forget in 1911 going with a committee of 12, to discuss conditions on Randall's Island with Mr. Smith. It was in the evening, and after we had finished our discussion, he invited us to walk to his home nearby to meet Mrs. Smith. It was there I first knew her. We were all charmed by her gracious manner and tact, qualities she possessed in a marked degree."

"Displayed Qualities at Houston."
"These qualities stood out in Houston at the time of the Democratic Convention. It was a real pleasure to see with what skill and tact she handled that situation. The observed of all observers—yet can well imagine, a very conspicuous figure. The recipient of a great deal of attention—receiving it all with simple dignity and modesty, never seemingly fatigued by the attention showered upon her, always a tactful remark for each occasion."

"I had the pleasure of taking Mrs. Smith to call on Mrs. Woodrow Wilson while there. They had never met before. There were two women destined to play very important parts in their husbands' lives. Mrs. Wilson filled all our requirements in the role she so successfully played as the first lady of the land and I am sure that Mrs. Smith will do the same. She unselfishly keeps herself modestly in the background—finding her greatest satisfaction in her husband's success."

Objects to Toting Groceries.

To the Editor of the Post-Dispatch:

TODAY I have had an awakening. I went to the chain store to buy my groceries. They were put into big bags. I paid for them. Then I proceeded to make a pack horse of myself. As I lifted these two heavy bags, I woke up and exploded right then and there. I remarked: "I wonder just how long women are going to stand for this sort of thing? The grocer no longer have to keep a delivery wagon. The women are their delivery horses. We are paying much higher prices for the food we buy for our families—\$2 goes nowhere—and we women, no matter whether we live in a block, or three blocks from the store, load ourselves down 'til we nearly drop in our tracks, lugging stuff home. If we are really training for trunk carriers, or baggage jugglers, we are getting some good, free training. Some of these days we women are going to strike—and when we do, the whole chain store world will sit up and take notice. It is the women who spend most of the family income. We try to be saving and make the dollar go as far as we can. But the men folks would do this "toting" stunt about once, and they would get their heads together and their minds working, and something would happen."

Well, my audience was small, but the few women who heard this declaration of mine, spoke right up and agreed that every word was the truth. The manager and clerks opened their eyes and ears, yelled out "next!" One fat man ventured to be "next," but he had only a small bunch of beads which, I presume, had been forgotten by his wife, in her "woman load." So the rest of the wagon loads of stuff is still there, waiting for some more fool women to lug it home. We women spend the money. Why can't we form a stock company, pay our money into our own company and make the profit, put our stores on wheels and bring our food to our very doors, and save our self-respect? I, for one, have made a pack horse of myself for about the last time.

A BUYING HOUSEWIFE.

Alas, Likewise Alack!

To the Editor of the Post-Dispatch:

WILL you please give room for a public expression of grief that a Baptist Bible-reading and Bible-teaching Christian feels at the deep humiliation that comes to him when a leader in Israel (Brother Stratton) should be corrected in his knowledge of the Scriptures by a Roman priest named Patrick Casey? Verily do we have made a pack show him that the Lord doth teach in the New Testament: Thou shalt not bear false witness. Matt. 19:18. Wherefore, O man ignorant of the Scriptures, doth thou presume to correct others, when thou thyself hast eyes holden of the Word of God? "Tell it not in Gath, publish it not in the streets of Askelon!" BROTHER HUMILIATUS.

A Girl Resents Treatment at Marquette Park Swimming Pool.

To the Editor of the Post-Dispatch:

RECENTLY I attended the Marquette swimming pool for the last shift, which is from 9 to 9:45 p. m. After the bell rang, signaling the end of the shift we, in due course, went into the lockers. We had not been dressing five minutes when the large lights were turned off and only half a dozen dim lights allowed to burn. This, of course, made it a case of dressing in the dark, which I assure you, is most inconvenient. After going all over the place to find a spot light enough to comb my hair, I began to do so, only to have half a dozen women tell me to "Hurry up!" Finally one, who seemed in authority, told me that they were going to turn off the lights. I told her, courteously, that if I was obliged to dress in the dark, naturally it would take longer, and she would have to wait until I had finished dressing. I was then told to finish outside. I replied that I did not care to do so.

I left without further word, but I would like to know why we, the taxpayers of St. Louis who pay these women's wages, should be treated or rather "bossed" in such a manner?

ONE OF THE MANY.

A Skiptop Idea.

To the Editor of the Post-Dispatch:

I HAVE a scheme whereby the railway company could maintain the skiptop system, serve each street and satisfy all concerned. Let the company have signs made reading "odd" and "even." As the cars leave the sheds put an "odd" sign on every other one and an "even" sign ditto. Those cars bearing the "odd" word stop at such streets as Thirty-third, Thirty-first, Twenty-ninth, while those bearing "even" sign stop at Thirty-fourth, thirty-second, thirtieth and so on. R. J. JORGENSEN.

GOV. SMITH AND MISSOURI.

The voters of Missouri have nominated two senatorial candidates who believe in prohibition and two candidates for Governor who do not believe in it. Since this is the dominant political issue in the State this year, they may be said to be very badly in need of leadership out of an anomalous situation. What is to become of candidates is not so important as what is to become of political parties and public issues.

The Post-Dispatch hopes that in his speech of acceptance Gov. Smith is going to furnish this leadership by taking a position for repeal or modification of the eighteenth amendment. The people of Missouri cannot continue indefinitely the present contradiction at the polls without landing at last in such confusion of mind that they will be unable to distinguish between either parties or issues. Indeed, the primaries just held in the State indicate that they are almost in that state of confusion now.

Mr. Hoover declines to render this great public service. He wants to make the prohibition laws effective, though how that could be done, or to what length the Government would have to go to do it, are as much beyond his comprehension as our own. He displays merely a naive optimism in the face of a reality that is every day growing more portentous. It may be true, as he says, that prohibition is "a great social and economic experiment." If so, it has dismally failed. He thinks we have the good sense to realize that it has caused great abuses which must be corrected, but he says nothing about the far greater popular realization that resentment of this drastic law among a free people is so widespread that it cannot be corrected. It is doubtful if a majority of the people would ever consent to scrapping the guarantees of the Bill of Rights for the purpose of making prohibition effective. It is even more doubtful that if this were done the Government could exert sufficient force to compel compliance. We have to guide us the historic incidents of the Alien and Sedition laws, which drove the old Whig party out of public life, and the Fugitive Slave Act, of which Abraham Lincoln said that no such law could prevail over the will of the people.

It is therefore necessary to turn to Gov. Smith. He does not believe in prohibition, but he has yet to say so as definitely and clearly as Mr. Hoover has said that he does believe in it. The voters of Missouri, having performed the anomaly of getting wet candidates mixed up with dry candidates until they no longer know what the relation of the ballot to the issue is, would like to be led out of this wilderness. The Democratic voters of the State particularly need political leadership. With their presidential candidate against prohibition, Mr. Hay, a dry, nominated for the Senate, and Mr. Wilson, a wet, nominated for Governor, they are in a position of almost intolerable contradiction. They have a right to know what will be done about it. It is impossible, in the present state of affairs, for them to make out what their relation to prohibition is. Gov. Smith can clarify the issue only by coming out in the honest, flat-footed manner of Mr. Hoover. If he is going to stand for modification of the Volstead law despite the plain language of the eighteenth amendment, he will only add to the confusion of mind everywhere which is so well illustrated by the situation in Missouri.

Speak out, Mr. Smith!

THE UNVESTED PRINCE.

Once again the volatile British have been plunged into hysteria, the occasion this time being the appearance of the Prince of Wales at a function without a waistcoat. This daring deshabille has rocked the island, and the heir-apparent has been respectfully but firmly told that not even royalty may attempt such a naked Americanism. Stolid folk that we are over here in the States we cannot quite understand the tantrums of our mercurial cousins, but we do know that nudity is not achieved at a single bound, and none knows better than we that, once the process of sartorial divesting is started, it may proceed to startling disclosure. So if London leads the song we'll join in the chorus of admonition to the Prince to "keep on your shirt!"

CONDITIONS IN TONY FOLEYVILLE.

Brentwood, the hard-boiled village on the Manchester road which Tony Foley selected as a site for his gambling club, Los Angeles, has again burst upon the front page. It seems there is a reign of terror in Brentwood, caused by certain thugs who do not like the efforts that are being made to clean up the county. On the night of the primary election, Charles Smith, a Brentwood trustee, was set upon and assaulted by a gang. Shortly afterward, the home of Edward J. Burke, another trustee, was fired upon from an automobile. Burke testified recently before the grand jury investigating county conditions and has been a prominent figure in efforts to clean up Brentwood. At midnight a fusillade of bullets was directed at the home of Henry Ruck, former city clerk.

Judge Mulloy, taking cognizance of this terrorism, has adopted the extraordinary course of appointing six elisors, or special court officers, to preserve the peace. In doing so, he has pointed out that Central Township has a force of several hundred deputies, who have had full knowledge of conditions in Brentwood, but no semblance of aid or protection has been afforded to citizens or property. Brentwood police have been appealed to for aid, but they have neglected their duty, in the opinion of the grand jury, which also criticized the Sheriff for indifference or neglect of duty.

It is apparent that conditions in Brentwood, never of the best, are growing steadily worse. For years the town has been known as a speed trap, an activity which rose to its gravest abuse when Officer Scott of Brentwood shot and seriously wounded a Washington University student whom he had chased as a speeder. But, with the advent of the Los Angeles club, Brentwood has become a rendezvous for crooks and gangsters, a community where it is perilous for

honest, law-abiding citizens to venture out after dark. Judge Mulloy is to be commended for taking his unusual action. Tony Foleyville must be cleaned up.

HOOVER'S PLAN TO END POVERTY.

Herbert Hoover has a plan for abolishing poverty in this country. He referred to it last Saturday in his speech of acceptance, as follows:

Given a chance to go forward with the policies of the last eight years, we shall soon, with the help of God, be in sight of the day when poverty will be banished from this nation.

In other words, Mr. Hoover intends to banish poverty by carrying out the policies of Warren G. Harding and Calvin Coolidge. What were those policies? We are familiar with the most important. Under Harding they were:

1. To maintain wartime prices on manufactured goods by the device of exorbitant tariff rates. This was accomplished through the enactment of the Fordney-McCumber tariff bill.

2. To open up the national resources to private exploitation. In the case of oil, this was done by giving Teapot Dome to Harry Sinclair and Elk Hills to E. L. Doheny.

3. To give the boys who had supported the ticket an opportunity to graft on a colossal scale. This was achieved by turning over the Government departments to the members of the Ohio Gang.

4. To crush organized labor. In the case of the railway shippers, this was accomplished by Attorney-General Harry M. Daugherty through injunctions, contempt prosecutions, and similar forms of oppression and intimidation.

Mr. Coolidge, in addition to pledging himself faithfully to execute the policies initiated by Harding, introduced new ones of his own, the most important of which were the following:

1. Relieve great wealth of its fair share of taxation. This was accomplished through the Mellon Plan.

2. Insure Big Business against governmental regulation by packing the great boards and commissions with men known to be friendly to the interests they were required to regulate. This was done by placing Marvin, Glassie and Brossard on the Tariff Commission; Humphreys and Myers on the Federal Trade Commission, and Woodcock on the Interstate Commerce Commission. Nullification of the anti-trust laws was made doubly sure by putting John G. Sargent in the office of Attorney-General.

3. Keep the public in ignorance of the extent to which they are gouged by the public utilities. This was accomplished by (a) defeating the Norris plan for Government operation of Muscle Shoals, and (b) defeating the Walsh resolution for a Senate investigation of public utility practices.

4. Vastly increasing the expenditures for military and naval purposes.

We have omitted some, such as the policy of intervention in Nicaragua, which is costing the taxpayers millions of dollars; but the foregoing are, in the main, "the policies of the last eight years." And it is through these policies, "with the help of God," that Mr. Hoover expects soon to banish poverty from this nation!

We can only assume that Mr. Hoover is relying heavily upon divine assistance. In no other part of his plan are we able to find any grounds for hope of early relief from poverty.

FABULOUS FINANCE.

This is a story of fabulous finance, staged in St. Louis.

Two of our citizens, Jacob L. Babler and Massey Wilson, formed the International Co., a holding company which was to buy insurance companies. They invested \$2000 in the project, taking in exchange 2000 shares of stock. This stock, for which they paid \$1 a share, constituted control of the holding company. That was in 1921. Three years later, in 1924, Babler and Wilson sold their stock in the holding company for \$550,000.

The men to whom Babler and Wilson sold were J. R. Paisley, W. K. Whitfield, John M. Atkinson and David W. Hill. They kept the stock for three years, or until the summer of 1927, when Roy Toombs came down from Chicago and paid them \$3,200,000 for the 2000 shares of International Holding Co. stock, originally owned by Babler and Wilson.

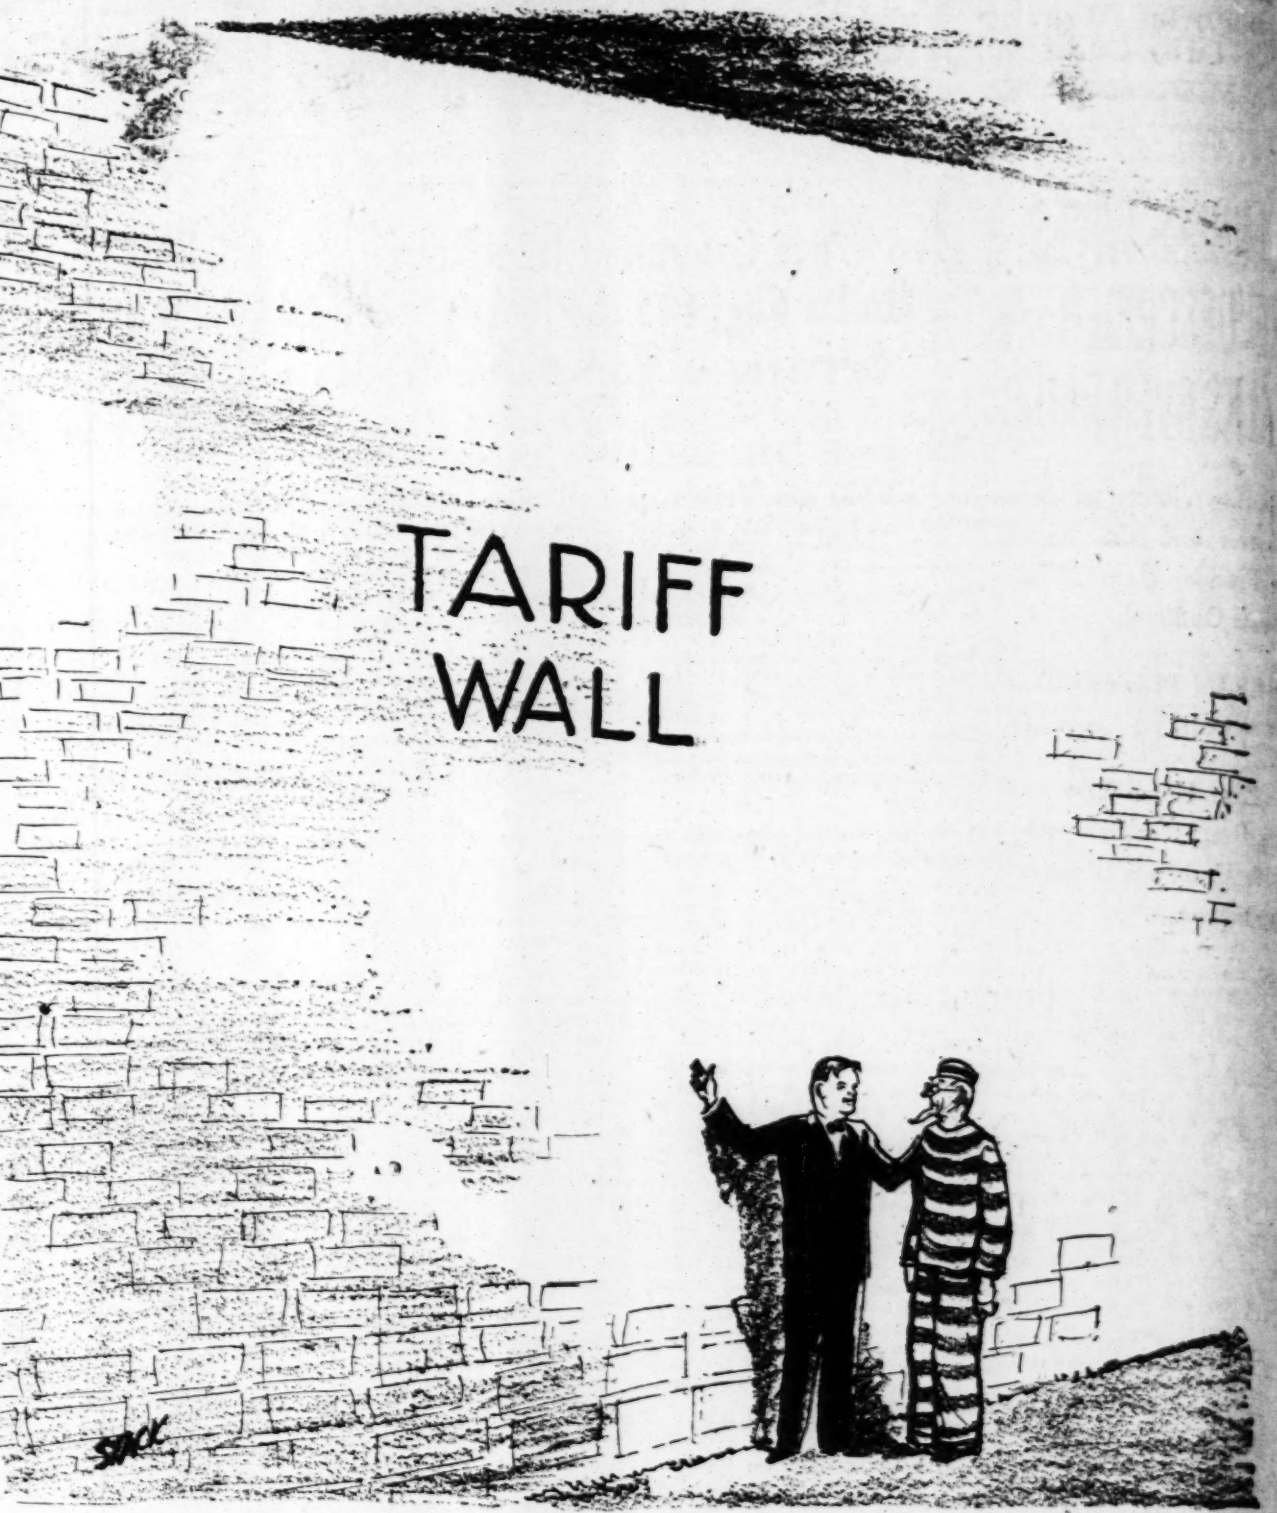

This stock multiplied itself in value 1600 times in six years. How this miraculous thing was done has been told in our news columns. The International Holding Co., in which Babler and Wilson invested \$2000, did buy insurance companies. It got the money to buy them by obtaining authority to issue \$2,800,000 of preferred stock. It bought the International Life Insurance Co. When it did so the 2000 shares of holding company stock owned by Babler and Wilson controlled the International Life Insurance Co. Similarly, when Toombs bought that holding company stock from them he bought the International Life Insurance Co.

We do not know how much net profit Babler and Wilson realized from their venture; neither do we know the net profit of Paisley, Whitfield, Atkinson and Hill. But when stock that was bought for \$2000 in 1921 sells for \$550,000 in 1924 and, again in 1927, sells for \$3,200,000, the presumption is that the profits were enormous.

Whence did these vast profits come? Obviously they came from the insurance companies the holding company purchased. They came mostly from the International Life Insurance Co. And the insolventcy of the International Life Co. is due to the fact that it did not have the earning power to yield such profits.

This, too, may be said: The International Holding Co. speculated in insurance companies. The record of its operations can be described by no word other than speculation. And the business of life insurance is, we submit, a business from which speculation should, in equity, be rigidly excluded. Life insurance is not an industrial enterprise. The life insurance company stands in the relation of trustee to its policy holders. It might be said, as the lawyers put it, to stand in loco parentis. Certainly no partnership, or corporation, or business organization is under more solemn obligation to its clients than is the life insurance company to its policy holders. When a life insurance company fails the failure is for many a family a tragedy of despair.

What the legal responsibility of our State Insurance Department may be for the apparent looting of the International Life Insurance is yet to be established. The department's moral culpability seems staggering.

MR. HOOVER TO THE FARMER: THE WAY TO GET YOU OUT OF HERE IS TO BUILD THIS WALL HIGHER.

Gov. Smith's So-Called "Repudiation"

A comparison of the Houston prohibition plank with Smith's wet statement demonstrates the falsity of the charge that Smith has repudiated his platform; Houston plank was worded expressly to omit a declaration upon the principle of prohibition; it left the candidate entirely free to advocate modification or abolition of the dry laws—a liberty of which he immediately availed himself.

By PAUL Y. ANDERSON of the Post-Dispatch Staff

THIS humble observer is no stump speaker for Al Smith—or anyone else—but he has grown excessively tired of hearing it said that Smith "repudiated" the Democratic plank on prohibition in the message which he subsequently dispatched to the convention at Houston. This statement is broadcast almost daily by preachers, politicians and professional dyes, some of whom undoubtedly believe it. Why they do not read the plank and the message, and thus discover their error, is difficult to conceive. Both are in plain language. To say that one "repudiates" the other is an assault upon ordinary understanding. The text of the plank is as follows:

The Republican party, for eight years in complete control of the Government at Washington, presents the remarkable spectacle of feeling compelled in its national platform to promise adherence to a provision of the Federal Constitution which it has flagrantly disregarded, and to apologize to the country for its failure to enforce laws enacted by the Congress of the United States. Speaking for the national Democracy, the convention pledges the party and its nominees to an honest effort to enforce the eighteenth amendment and all other provisions of the Federal Constitution and all laws enacted pursuant thereto.

Did Gov. Smith "repudiate" this declaration? Let us see. That portion of his message dealing with the subject, was as follows:

It is well known that I believe there should be fundamental changes in the present provisions for national prohibition, based, as I stated in my Jackson Day letter, on the fearless application to the problem of the principles of Jeffersonian Democracy. While I fully appreciate that these changes can only be made by the people themselves through their elected legislative representatives, I feel it to be the duty of the chosen leader of the people to point the way which in his opinion leads to a sane, sensible solution of a condition which I am convinced is entirely unsatisfactory to the great mass of our people.

Common honesty compels us to admit that corruption of law enforcement officials, bootlegging and lawlessness are now prevalent throughout this country. I am satisfied that without returning to the old evils that grew from the saloon—which years ago I held, and still hold, was, and ought always to be, a defunct institution in this country—by the application of the Democratic principles of local self government and states' rights, we can secure real temperance, respect for law, and eradication of the existing evils.

So what do we find? That the Democrats criticized the Republicans for their failure to enforce the prohibition laws in the past, and now intend to do so in the future.

poetry in promising to enforce them in the future. That they pledged the Democratic nominees to "an honest attempt" to enforce those laws as long as they remain on the statute books. That was the plank. In his message, Gov. Smith repeated his belief that there should be changes in the laws, accomplished in the orderly, legal way, and that he believed it to be the duty of the chosen leader of the people (himself, if elected) to point the way to a solution.

Obviously, the plank does not pledge the Democratic party or its nominees to the preservation of the present laws in their present form. It does not indorse the principle of prohibition. On the contrary, such an indorsement was purposely omitted, one reason being that the platform-makers knew Gov. Smith would not run on such a platform. All this was known to everyone in Houston. It should be especially fresh in the minds of the professional dry advocates, because the decision of the platform-makers not to indorse prohibition, and not to commit the party against any change in the laws, was made over their vehement opposition. For them now to argue that the plank did indorse prohibition, and that it did bind the nominees to preserve the present laws, is a singular piece of effrontery.

They tried to make the nomination of Smith impossible. They tried to force upon the convention a prohibition plank which would compel Smith to decline the nomination. Failing in that, they attempted to force the adoption of a plank which might render Smith silent on the issue. If he should accept, again they failed. Yet now they talk—some of them, at least—precisely as if they had succeeded. Their charge of "repudiation" is based on the assumption that their plank was adopted, although everyone knows it was not. If there is a polite word to describe that sort of talk, I have forgotten it.

A great many of us who have been sickened in the past by the shoddy claptrap and prejudicial appeal which have characterized presidential campaigns, hoped this one would be different. The character of the nominees warranted that hope, and to a degree the nature of the contest supported it. For those who believe that prohibition should be the deciding issue, there should be no doubt about how to vote. Hoover is dry and Smith is wet. Why cannot the professional dyes be content to oppose Smith on that simple question of principle, without resorting to misrepresentation of the sort involved in the charge of "repudiation?"

Of course, there are many people who do not believe that prohibition should be the controlling issue. Millions in the West and South regard farm relief as more important. To others, honesty in government is paramount. Still others regard the control of natural resources, such as water power, as the greatest issue. As the position of the nominees upon these questions becomes clear, they, too, should be able to choose honestly and without confusion.

JUST A MINUTE

(Copyright, 1928)

THE PLANETARY INFLUENCE.

It has been discovered that the stars have power over the destinies of men.

Hoover—News Item.

They're starting names in warring claims, though he it said no barring times.

When some consult the wishing well and some consult the stars;

They're finding hope in blinding dops of magic, and past all minding scope.

For no campaign, however high, the esoteric bars;

Consulting stars, exulting Mars, no sign that is resulting bars;

Since some are fixed for Hoover and from others Smith takes heart;

Then voting know that glowing glow is even stars devoting show.

The race is so important that the way stars take part.

They're gazing much, they're raising such a strange and most amazing touch.

Perhaps the moon's for Hoover and the stars for Smith;

Of those who work strange wonders with the letters of each name;

Deciding star, adding far, my mind's made up, no tidings mar.

Perhaps you do decide it, but I'm voting just the same.

The vice presidency is spoken of as an obscure office, but we see that Senator Fox is to deliver the notification speech to Senator Curtis.

Occasionally we wonder if it ever occurred to the man who selects the delegates that maybe his best friends would give over them some day.

Gov. Smith, according to Dr. Brill, is a syntonic, and Hoover a schizoid, but the campaign is young yet.

Of course the man who called them prominent waves did not have his mind on his work, but look how the opposition is an argument abuses the word "psychology."

Statistical Note.

Really the best way of finding out whether or not the side door was left unlocked is to go down and see before listening to the testimony.

The full dinner pail has been resurrected for the campaign, and in case you do not know what a dinner pail is, it is what has been resurrected for this campaign.

Language is the art concealing thought, especially if the 3-year-old is reading the book aloud.

One big advantage of the old-fashioned complexion was that the amount of it did not vary much from day to day.

In Utopia, we suppose, after about 19 years, a troublesome issue would be out of bounds.

It must be the glory of running, if that is the right word. We see that the prohibition party's candidate also accepted his nomination.

MINUTE INSECT HELPS HUMAN BEINGS LIVE

Too Small to Be Discerned by Eye, It Destroys Larger Parasites.

Special to the Post-Dispatch.

ITHACA, N. Y., Aug. 15.—M. trichogramma minutum. This little insect is a great friend of the family—of the human family. Most persons do not know it because it is too small to be seen as she goes about the world, doing good to them and ill to their enemies. But those who study the lore of insects know about her, and she is being discussed a good deal at the meetings of the Fourth International Congress of Entomology here. Trichogramma is one of those interesting though tiny insects that lays her eggs in the eggs of others and larger insects that eat man's crops and orchards. The grubs that hatch out of such parasitic eggs prey upon the larger eggs in which they are laid, and so destroy them.

Not at All Fussy.

Some of these egg parasites are quite particular, patronizing the eggs of only one group of victim insects; but trichogramma is not at all fussy. That is what makes her so useful. She will lay her eggs within the egg of any other insect she can get at that is large enough and not too hardshelled. Moth eggs, sawfly eggs, beetle eggs—they are all just so much infant food so far as she is concerned. She has been known to parasitize 40 per cent of all corn borer moths, or 90 per cent of all cotton caterpillars, in given areas.

To date she has had to take her own chance in the wild state, so that in an unfavorable season there were not enough of her sisterhood to take care of the eggs of the teeming pests. Now, however, she has been taken in hand by Stanley E. Henders of Saticoy, Cal., and brought up in huge numbers in captivity.

Follows Simple Method.

His method is simple. He first breeds a lot of pests—grain moths—in 40 or 50 bushels of wheat. Then he lets the trichogramma mothers loose at their masses of eggs. Presently he has perfect loads of trichogramma which he then carries out into the California walnut orchards, to mop up the codling moths.

Since trichogramma has such uncritical taste in victims, many other insect pests will doubtless be attacked by her aid in time. The most likely possible candidates are discussed by W. E. Hinds of the Agricultural Experiment Station, Baton Rouge, La.

A new technique in the handling of another insect friend of man, which has been reared much longer in captivity, was demonstrated by Dr. Lloyd R. Watson of Alfred, N. Y.

Fertilizes Queen Bees.

He has worked out a means of artificially fertilizing queen bees, which will make it possible to breed bees as accurately and scientifically as are cattle. Hitherto fertilization of the queen has been a matter of chance. The young queen flies out of the hive, mates with any drone she may meet in the air, and returns to take up her duty of laying thousands of eggs. But, beekeepers have never known what the father of the new brood was like. By Dr. Watson's method, which involves the use of microscopic glass tubes of unimaginable fineness, the process is made largely mechanical and the drone that is to be the father of the bee colony can be selected just as accurately as can the queen that is to be the mother.

Steamship Movements.

Arrived.

Hamburg, Aug. 14, Albert Ballin from New York.

London, Aug. 14, Minnekahda from New York.

Manila, Aug. 11, President Harrison from New York.

Shanghai, Aug. 14, President Jackson from Seattle.

Hongkong, Aug. 12, President Pierce from San Francisco.

New York, Aug. 14, Scythia from Liverpool; Stockholm from Gottenburg.

Sailed.

Southampton and Cherbourg, Aug. 14, Leviathan for New York.

Manila, Aug. 11, President Madison for Seattle.

Southampton, Aug. 14, President Roosevelt for New York.

Less than the Cost of a Laundress and no Worries

In the homes where the nickels and dimes are carefully watched our Soft Finish Family Service has found popular favor.

The clothes are washed scientifically in eight changes of clear soft water.

All flat pieces like bed and table linens are ironed and folded.

Bath towels, underwear and stockings are fluffed dry ready for use.

This leaves only the form pieces to be starched and ironed at home.

We do the hard part that is why this service is so very popular. Price over 20 lbs. 9c lb., under 20 lbs. 10c lb.

Phone FOrest 7300, 4 phones.

New York Day by Day

By O. O. McIntyre

NEW YORK, Aug. 15. SUMMER brings freakish electrical storm displays to Manhattan Island and instead of a populace hiding under beds or sitting on feather pillows they stand at windows with an admiring "Ah!" Nobody seems fearful of the flash of lightning and crash of thunder.

As I write, a bright sunny morning was followed by a sudden fall of darkness and streaks of fire began playing along the surrounding skyscrapers. The illumination shows a press of faces at every window to watch the heavenly pyrotechnics.

There is something buoyant here about a cyclonic storm that sweeps so suddenly in from sea. It clears the atmosphere as refreshingly as the clean patter of rain that follows. The sun pops out in sudden splendor and the whole island has the headiness of a rare glass of wine.

It has always struck me New York acquires a storm jarg. After it is all over, there is a cheerfulness and vivacity. The pedestrian's step is lighter. Teamsters indulge a roguish familiarity. The traffic cop unbends and clerks are more ingratiating.

There are many people who, at the approach of a storm, race in their motors to Inspiration Point, a beautiful upward sweep of Riverside Drive. Across in the Jersey Hills the lightning disports revealing flashes of the stately Palisades cowed in misty purple.

Then there is the glint of fire on the craft in the Hudson. Sailboats and canoeists seeking harbor. The river ripples with a joyous activity in a storm and in the stretch of apartment houses along the drive there are thousands of windows to enjoy the spectacle.

Cogman's Bluff in Harlem also offers a gorgeous view of a storm. In the skyscraper areas it is marvelous how lightning seems to play hide and seek around the tops of

towers. It has none of the fright of the sudden bolt. Its manner is kittenish.

THE submission of pets to the custom of their master is revealed in a little cafe opening at dusk and closing at dawn in the Forties. The proprietor has two dogs, a cat and three canary birds. All sleep all day and are awake all night.

THREE first novels of American youths this season have shown a blighted air—a fog of futility. The idea, of course, is from the Russian. It is to the credit of a merry nation sales to slight.

FOR some time many writers, including myself, have been harping the younger generation is not so wild as pictured. Yet this morning in dropping a friend at an upper Park avenue apartment house he insisted I run in a moment. It was 9:30 o'clock, and two girls not more than 15 and a young man of about 21 were on their second round of cocktails before breakfast. Fun is fun, but young folk should wait until noon. Drinking before breakfast might stunt their growth.

THE need for ordinary politeness is great among New York's motorcycle cops. Their attitude is snarling and impudent—another instance of the mistake in giving authority to those not capable of grasping its meaning. And to those who hoot, "What did you get a ticket for?"—I didn't.

SEVERAL New York doctors are discussing cradle rocking pro and con—a great deal I suspect is con. They say the custom is not only unhealthy but in cases dangerous. Some mighty illustrious men and women, however, have survived it. But it does seem a few of us act as though we might have been rocked silly.

(Copyright, 1928.)

PASTOR WILL BE INSTALLED

The Rev. R. R. Caemmerer to Mount Olive Lutheran Church. The Rev. Richard R. Caemmerer will be installed at 8 p. m. Sunday as the first permanent pastor of the Mount Olive Lutheran Church, 4236 Shaw boulevard, which was organized two years ago.

Prof. W. Arndt of Concordia Seminary, where the Rev. Mr. Caemmerer took undergraduate and graduate work, will officiate. The new pastor has made many radio acquaintances as announcer for Concordia Station KFUD. Last month he married Miss Dorothy Scaev, a teacher in the Lutheran Institute at Forest Park, Ill.

Mrs. Hoover to Visit Birthplace. Special to the Post-Dispatch.

WATERLOO, Ia., Aug. 15.—Returning to the town where she was born for the first time since she left here at the age of 12, Mrs. Herbert C. Hoover will come to Waterloo Aug. 22, to spend the afternoon and evening with schoolmates and other friends of her childhood days. Hoover will remain in Cedar Rapids. Mrs. Hoover is remembered here as the active daughter of the bookkeeper in the First National Bank. While here she will be the guest of the Waterloo Woman's Club. A garden party and dinner are planned in her honor.

FUNERAL OF MRS. E. H. PETERS

Services Will Be Held Tomorrow at 3 P. M. at Grace Church.

Funeral services for Mrs. Edwin H. Peters, who died of heart disease at St. Luke's Hospital yesterday after an illness of about a year, will be held at 3 p. m. tomorrow at Grace Methodist Church, Skinner road and Waterman avenue.

Mrs. Peters was 45 years old. She was married in 1906 to Edwin H. Peters, vice president of the International Shoe Co., son of the late Henry W. Peters, shoe manufacturer. She is survived by her husband, her mother—two sisters, Miss B. Grace Porter of Plattsburg, O., and Mrs. H. J. Dickerson of Lakewood, O.

MUNICIPAL OPERA STARS FLY

Taken on Air Trip in Tri-Motored Plane.

Principals in the Municipal Opera company view the Forest Park Theater from the air yesterday as guests of the Robertson Aircraft Corporation.

The trip was made in one of the new Robertson tri-motored Ford passenger planes. Among those who went aloft were: Bernice Mershon, Florenz Ames and Mrs. Ames, Sam Ash, Joseph Royer, Robert Betts and Director of Public Welfare Salisbury.

GARY (IND.) PARTY TO JOIN GROUP FOR VAN GILDER DEBUT

Many Persons to Come to St. Louis by Train, Auto and Bus for "Aida" Production.

Gary, Ind., has joined its neighboring city, Hammond, Ind., in reserving space for 25 persons on a special train which is to bring 200 citizens of Hammond to St. Louis next week to celebrate the American debut of Miss Lydia Van Gilder of Hammond in the Municipal Theater production of "Aida."

Other Indiana cities are expected to fall in line to make Miss Van Gilder's debut here something comparable to Marion Talley's first night at the Metropolitan. Many persons from Hammond will drive their own automobiles, and one from Gary has chartered a bus.

Miss Van Gilder was an unknown music student five years ago, but within a year had a place in the La Scala Opera Co. in Milan.

FOUNDED SHAKESPEARE SOCIETY

James Appleton Morgan Dies at 83 in New York.

NEW YORK, Aug. 15.—James Appleton Morgan, lawyer and authority on Shakespeare, died early today in St. Luke's Hospital at the age of 83. He was president of the Shakespeare Society of New York. He was born in Portland, Me., was graduated from Racine (Wis.) College and Columbia University Law School. He married in New Orleans in 1877 Miss Olive Morse. Six years after his graduation from Columbia Mr. Morgan became associate counsel for the Erie Railroad. In 1886 he retired from professional practice to devote his time to writing.

Mr. Morgan developed a theory that the Shakespearean plays as printed in the 1623 folio were not always the work of one author but of many actors. In support of this he published the Bankside Edition of Shakespeare in 20 volumes. He wrote and edited books on law, railway management and literature. He founded the Shakespeare Society in 1885.

Mrs. Steinheimer, 87. Mrs. Johanna Steinheimer, 87 years old, one of the oldest residents of Marissa who is survived by 20 descendants, died yesterday and was buried this afternoon in the Marissa cemetery. Mrs. Steinheimer was a daughter of the late Mr. and Mrs. Philip Steinheimer, pioneer residents of St. Clair County.

RETURNS HOME

MISS JANE SMITH.

MISS SMITH, daughter of Mrs. Claude H. Smith of 19 Princeton avenue, University City, has returned from a visit to relatives in Memphis, Tenn.

MISS RASCHE BACK HOME

German Aviator Says U. S. Needs Law to Protect Flyers.

HAMBURG, Germany, Aug. 15.—Disillusioned, but still strong for America, Thea Rasche, Germany's woman flyer, returned home today. She was warmly welcomed by friends.

"What America needs is a set of laws protecting flyers," she said to the Associated Press. "I was far too trustful. I saw papers handed me by men who pretended to be interested in aviation, only to discover soon that they were merely interested in cleaning up some 'big money.'" In America nobody took any great interest in either commercial or private flying until Col. Lindbergh's brilliant achievement. Then all sorts of elements, scenting big profits ahead, took up aviation. To them pilots are merely objects of exploitation."

Rules Girls Must Wear Hosiery.

PITTSBURG, Kan.—Girls appearing at public places in Pittsburgh must wear hose, the City Welfare Board has ruled.

SOCIAL ACTIVITIES

MRS. J. D. PERRY FRANCIS of 4510 Maryland avenue, who has been at La Jolla, Cal., the past fortnight, will be joined this week by Mr. Francis, who will remain three weeks in the West.

N. S. Chouteau Walsh of 7 Beverly place will also leave this week to join Mrs. Walsh, who has been in La Jolla since early in July. Mr. and Mrs. Walsh will return home the first part of September. Mrs. Francis will remain until October and will be accompanied to St. Louis by Mrs. Walsh's mother, Mrs. W. D. Crosby, who will spend the winter with her daughter.

Mrs. Charles T. Farrar of 4920 Laclede avenue will depart today for Estes Park, Col., to join Mrs. Joseph E. Gorman of 27 Lake avenue, who is spending the summer there.

Mrs. Alfred H. Murphy of 4929 McPherson avenue left yesterday for Estes Park, Col., to visit Mrs. Briggs Hoffman of 4459 Lindell boulevard.

Mr. and Mrs. Benedict Farrar of the Price and Edgewood roads and their two young sons have returned from a tour to Colorado, Wyoming, Oregon and California.

Mr. and Mrs. Thomas D'Arcy and their daughter, Miss Catherine, have arrived from Chicago where they have been for the last two years to make their home in St. Louis for a time. They have taken an apartment at the Gatesworth Hotel and will be joined Sunday by their son, Basil. Miss D'Arcy will return to Lake Forest, Ill., in the fall to resume her studies at the Sacred Heart Convent.

Announcement was made today of the engagement of Miss Emily Hensley, daughter of Mr. and Mrs. Walter L. Hensley of 419 Fullerton drive, Clayton, and Dr. Andy Hall Jr. of Maplewood, son of Dr. and Mrs. Andy Hall of Mount Vernon, Ill.

The news was told at a bridge luncheon to which 16 friends of the prospective bride were invited. Garden flowers were used in decorating the home and the luncheon table, lavender tones predominating. The wedding will take place at the Delmar Baptist Church, Oct. 2.

Miss Hensley was graduated from Mary Institute and National Park Seminary, Washington. Dr. Hall is

a graduate of Culver Military Academy and Washington University.

Mrs. F. W. Phelan of 19 Princeton avenue, University City, and her granddaughter, Miss Jane Smith, have returned from Memphis, Tenn., where they have been visiting Mrs. Phelan's son and daughter-in-law, Mrs. David Phelan. Mrs. David Phelan was before her marriage Miss Ramell Omberg of Memphis, a debutante of last season. Miss Smith will resume her studies at the Sacred Heart Convent, Maryville, this fall.

Miss Helen Frampton, daughter of Mr. and Mrs. Reynolds Craig Frampton of 7312 Westmoreland drive, who is touring Europe under the chaperonage of Mrs. Harry P. Wagner of the Forest Park Hotel, is now in France. She will arrive in New York Sept. 6, and will be met by her parents, who are spending the summer in Santa Monica, Cal. A younger daughter, Miss Culara Frampton, who is in the West with her parents, will resume her studies at Mary Institute upon her return to St. Louis.

Mrs. Leo Bartels of 5870 Cabanne avenue and her daughter, Pauline, and Mrs. J. E. Montague of 422 Eastgate avenue, left yesterday for Yellowstone Park, Estes Park and other resorts in Colorado.

Miss Margaret Jeannette McCarthy, daughter of the Rev. and Mrs. John McCarthy, was married to Judge Henry Clay Warth of Huntington, W. Va., at 5 p. m., Aug. 9, in Bellefontaine Methodist Church. The attendants were Mr. and Mrs. Griffin McCarthy, Mr. and Mrs. W. L. Ross, Mrs. R. O. Joslyn of Kansas City, Miss Bertha James, Miss Fannie Carter Barnhart, Peter Gibson, C. H. Sackett and Edward Jacobsmeier. The ceremony was performed by the Rev. J. E. Godbey. A reception at the McCarthy home followed.

Judge and Mrs. Warth departed for a Great Lakes tour before going to their home in Huntington.

Mr. and Mrs. Roth V. Stapp of Columbia, Mo., who have been in Minneapolis, Minn., for the summer, will arrive Friday to visit Mrs. Stapp's mother, Mrs. George M. Harrison of Pasadena Park.

J. A. Sullivan Sues for Divorce. John A. Sullivan, a rug importer, with offices in the Equitable Building, sued today at Clayton to divorce Mrs. Gladys Sullivan, 6606 Enright avenue, alleging general indignities. He set forth that they were married in 1912 and separated this month. He asks for custody of a 10-year-old son.

Mrs. Reibold's Funeral. The funeral of Mrs. Katie Reibold, 71, Lebanon, who died yesterday, will be held Thursday afternoon at the College Hill Cemetery at Lebanon. She is survived by five daughters, one son, 12 grandchildren and two great grandchildren.

Designed by Experts

NOTE the generous overlap of the extension fronts, wide hems and reinforced strain points. Remarkable in quality and style features is the comfortable, practical, long wearing Angelica Hoover. But with all these, and not forgetting the superior Angelica workmanship, the chief attraction of these wonderful housedresses is the added charm they give your appearance about the house. See them at Angelica's Retail Department or ask for catalog.

**FREUND AND BECKER GET
BACK POSTS THEY RESIGNED**
Police Commissioner and Doctor, Who Quit Jobs to Enter Primaries, Reappointed.
Police Department personnel has returned to normalcy, with the reappointments of Commissioner Arthur J. Freund, who resigned

from the board in June to run for Circuit Attorney, and Dr. George W. Becker, who resigned as department physician to run for Coroner.
Both were defeated in the Republican primary last week. The Police Board reinstated Dr. Becker, and Gov. Baker returned Freund to the board, where his place had been held open.

Fever Epidemic in Athens.
By the Associated Press.
ATHENS, Aug. 15.—Dengue fever has lately appeared in Athens and while the number of cases is unknown, it is said probably to exceed 6000. Many banks and public departments are suffering from a shortage of help because of fever among their employees. The disease is rarely fatal.

POISON REPORTED FOUND IN BODY OF LOEWENSTEIN

Autopsy by French Expert
Said to Have Disclosed
Toxic Matter in Belgian
Financier.

RESULT OF ANALYSIS
TO BE KEPT SECRET

Capitalist Who Fell From
Plane July 4 Known to
Have Taken Strong
Doses of Medicine.

By the Associated Press.
PARIS, Aug. 15.—An unofficial report that toxic matter had been found in the viscera of Capt. Alfred Loewenstein, Belgian financier, today added to the mystery which has surrounded his death.
Members of his family had requested that an examination of the body be made after it was found July 19, in the English Channel into which Loewenstein had fallen from his private airplane, July 4. It was stated that their object was to make impossible the cropping up in the future of sensational and fantastic stories about the banker's death.

The investigation was entrusted to Dr. Paul, chief chemical analyst for the Surete Generale, the French Scotland Yard, and a leading authority on medical jurisprudence. Le Matin says the report is current that the expert's report, which will not be made public, discloses "traces of a very characteristic toxic matter."

Judicial Difficulties Likely.
The report is to be forwarded to the court in Brussels which conducted an inquiry into the case. Should this lead to a reopening of the investigation it is likely to have diplomatic as well as judicial ramifications since the body was recovered outside of the territorial waters of England or France.

Kohn Abrest, the toxicologist, who made the analysis, refused to say what had or had not been discovered and said that he had made no report as yet for the reason that he had not finished his work. Le Journal, however, said today that Abrest recently told someone who questioned him on the subject, there is nothing, nothing—no poisoning, simply the remains of an ordinary meal and sea water.

Took Aperient Medicines.
The newspaper Telegramme de Boulogne quoted the Judge of the Boulogne Court as saying that the presence of poison in Loewenstein's body did not necessarily indicate that the capitalist had died from that cause. It was known, the Judge said, that Loewenstein was in the habit of taking aperient medicines, and that he took a large dose, July 4, before leaving the Croydon Airfield. Such a strong dose, he continued, could account for the accumulation of toxic substances.

**POISON DEATHS AT CABOOL
NOW AScribed TO SNAKEWEED**
Plant Found on Farm of Joseph McGeeche Where Four Persons Died.

By the Associated Press.
SPRINGFIELD, Mo., Aug. 15.—Medical men, perplexed for more than a week as to the cause of four deaths from poisoning at Caboal, Mo., are inclined to the theory that Tremetol, the oil in richweed, commonly called white topped snakeweed, was responsible.

This weed, which has been found on the farm of Joseph McGeeche, four miles west of Caboal, is the only likely cause of the deaths, physicians said. Symptoms in the illness preceding the deaths of the four persons were similar to those of the snakeweed poisoning.

**\$100,000 JEWELRY ROBBERY
REPORTED BY HANDCUFFED MEN**
Jewelry Salesman Found Near Chicago Says He and Taxi Driver Were Kidnaped in Omaha.

By the Associated Press.
CHICAGO, Aug. 15.—Morris Keen, a New York jewelry salesman, and Wilmer Kivett, an Omaha taxicab driver, were found handcuffed walking along a suburban highway near Wheaton, Ill., today. They told police they had been kidnaped in the Omaha business district by three robbers in Omaha yesterday and driven 500 miles as prisoners in an automobile until they were freed today near Chicago. The robbers took from him jewelry worth \$100,000. Keen reported.

MAN DISARMED BY EX-WIFE

Still She Has Him Arrested for Threat to Kill Her.
Martin Rizzo was arrested yesterday at 2331 Seventh boulevard on complaint of his divorced wife who said he had threatened to kill her with a pistol.
"Where's the pistol?" police asked. "Oh, I took it away from him," she replied, and surrendered the weapon. Rizzo made no statement.

**COOLIDGE FAVORS
\$318,600,000
FLOOD PROGRAM**
Continued From Page 19.

ser volume than the maximum flood will also be reduced in length. The 1927 flood actually produced a stage of 56.4 at Cairo without accident and an equal flood under the plan of the adopted project will produce a stage of about 55.5 for a short time only. It should be remembered that a flood approximating in volume the

maximum predicted as possible, can occur, according to predictions, on the average, only once in 200 years.
"From New Madrid to the mouth of the Arkansas River, the adopted plan provided for raising levees to a grade one foot above the super-flood, except opposite their backwater areas of the St. Francis and the White.
"The Mississippi River Commission plan raises these levees slightly below Memphis, but only sufficiently to afford protection against a flood about equal to that of 1927."

BOY SENDS HOOVER \$2 BILL GENERAL
Nominates Three Campaign Gift
Over to G. O. P. Fund.
By the Associated Press.
PALO ALTO, Cal., Aug. 15.—A young man, Robert Taylor, a son of a well-known family of Charleston, W. Va., has raised \$2 by the gift another boy sent by \$1 to Gov. Smith for his campaign fund.
Bob has received a personal letter of thanks from the Republican presidential candidate. "I am very glad to have your good letter with the \$2," Hoover replied. "I have sent the money to Mr. Nutt who is treasurer of the Republican committee. It will be spent to carry on the campaign. I like your spirit and I like your picture—it shows me the kind of fellow it would be good to have on one's side in a scrap."

shares, compared with 2,555,300 a year
ago.

By the Associated Press.

NEW YORK, Aug. 15.—One of the most impressive bullish demonstrations of the summer took place in today's stock market. Responding to easier credit money conditions and a griet of favorable trade news, prices of many leading issues were marked up 2 to 10 points, with a number of high records established during the day. Trading showed a marked expansion in volume, the day's sales aggregating 2,555,300 shares.

Call money renewed at 7 percent, as against 7 1/2 yesterday, and dropped, successively, to 6 1/2, 6 and 5 1/2, as a large supply of loanable funds came into the market. Time money and commercial paper rates held firm. Persistent reports were in circulation that Federal reserve banks were buying bills in the open market, but these could not be confirmed.

Bulk of News Favorable.
The bulk of the day's trade news was favorable. Reports of unusually large midsummer steel operations were accompanied by the announcement that Republic Steel had raised the price of bars, shapes and plates \$2 a ton for fourth quarter delivery. Directors of the Kennecott Copper Co. raised the annual dividend from \$2 to \$4. The latest weekly carloadings reported showed a gain over the corresponding period last year but was below the same week of 1927.

Crude oil production showed a substantial decrease last week, but fears were entertained in some quarters that the expiration of the Seminoles agreement might lead to another period of overproduction.

Motors to Front.
Motor shares were again in the forefront of today's advance with General Motors supplanting Chrysler as the market leader. General Motors closed 8 points higher at 184 1/2 on buying stimulated by the report of an over-crowded short interest. Chrysler touched a new record top at 98 1/2 and then declined to 96 1/2 for a slight fractional net gain on the day. Packard crossed \$1 for a net gain of more than 4 points and Studebaker closed 3 points higher. Brockway Motor common and preferred, Dodge Brothers preferred, Motor Products and Motor Wheel all moved into new high ground.

Radio Performs.
Radio was again a spectacular performer, scoring more than 10 points to 133. American Can climbed more than 7 points to 9 1/2, the highest price since the 1924 split up, and closed within a fraction of the top. Other issues to move into new high ground included Paramount Famous Lasker, Warner Bros. "A", R. H. Macy, Spang, Chalfant, National Cash Register, F. W. Woolworth, Grand Stores and Jewel Tea. Shares of these were recorded by Montgomery Ward, Case, Thrashing, Johns-Manville, National Tea and Woolworth.

Trading in the rails was restricted by the uncertainty resulting from the outcome of the wage dispute on Western roads, although good gains were recorded by Delaware & Hudson, "Katy" common and St. Louis Southwest.

Commodity prices were mixed. Sterling is down. Establishment of new low records by British and Japanese exchanges featured the foreign exchange trading. Sterling cables sold down to 48 1/4, or close to the "gold import" point, and Japanese yen broke 11 points to 44 1/2 cents. Other recessions were nominal with trading quiet because of the widespread observance of Assumption day in foreign capitals.

Kennecott Copper Again Raises Dividend Rate.
NEW YORK, Aug. 15.—Directors of Kennecott Copper Co. declared a dividend of \$4 a share, or 40 percent of the stock, on the basis of the dividend rate of \$3.50 a share, which was declared on Oct. 31 last. The dividend was paid to holders of record as of Oct. 31.

Zenith Radio Report.
By the Associated Press.
CHICAGO, Aug. 15.—Zenith Radio Corporation today reported earnings of \$153,000 for the first nine months of 1928. The report was made to the stockholders at a meeting held at the company's headquarters in Chicago.

SHARES SOLD.

COULDN'T BE ARRESTED BUT IS, JUST THE SAME

Deputy U. S. Marshal Subdued
by Chicago Police After
Wild Affray.

By the Associated Press.
CHICAGO, Aug. 15.—"You can't put me in jail," said Deputy United States Marshal Richard J. Murphy at the Warren Avenue Police Station last night. "I'm a Government officer."

But they put him in jail anyway, while the desk sergeant wrote the following items opposite Murphy's name: (1) Creating a riot; (2) Slugging a woman and a man; (3) Shooting two bystanders; (4) Biting a policeman.

Murphy, in his automobile, was on his way to serve two warrants involving dry law violations. His car was held up by a stalled machine driven by Miss Marjorie Meeks, 17, indignant at the delay.

The marshal, according to Miss Meeks and others in her car, got out of his machine and struck her across the arm with a blackjack. A crowd that had gathered began muttering protests and Charles Hebert, a spectacle youth who was in the front ranks of the assembly, was punched in the face by Murphy, as the story was related to police. This incensed the crowd and they began pressing in on Murphy who, witnesses said, drew a revolver and opened fire. Arthur Bandi was shot in the hip and Edward Tracy (who had just driven up and didn't know what the shooting was all about) stopped a bullet with his left leg.

The crowd fled—all save Bandi, who couldn't make much progress because of his wound. Murphy arrested Bandi and started with him to the Warren Avenue Police Station. Miss Meeks and others followed, to place complaints against Murphy.

At the station Murphy was told he would have to remain while the affair was investigated. He thereupon drew his revolver again, informing the bluescoats they couldn't arrest him. Gentle persuasion was employed to induce Murphy to lower the weapon, following which a half dozen policemen fell upon him. During this embroglio one of Police Officer Kitch's fingers got caught between a pair of teeth, allegedly Murphy's.

Then they locked up Murphy.

BLACKSMITH HELD ON MURDER CHARGE FOR KILLING BEGGAR

Ray Wallis of East St. Louis Beat Lane Man to Death With Iron Bar, Witnesses Say.

Ray Wallis, powerful blacksmith of 66 St. Clair avenue, East St. Louis, was ordered held on a murder charge for the grand jury today, in connection with the death Sunday afternoon of Jabe Salmonds, 60-year-old lame beggar.

Three witnesses testified before the coroner's jury that Wallis, who had been drinking, attacked the beggar with an iron bar and clubbed him to death in front of Wallis' smithy at 202 East Broadway.

Wallis, who is 40 years old, confessed to police that he had killed the beggar following a drunken brawl. He said he was moving his shop to another address, and Salmonds interfered with him. "The beggar struck him with a cane, Wallis told police, and he got an iron bar, thinking Salmonds had a revolver in his pocket. As Salmonds said to a chair, with his lame leg resting on his cane, Wallis hit him over the head with the iron bar, continuing to rain blows until Salmonds was insensible.

Wallis' family had owned the forge at 202 East Broadway for years. The present blacksmith is about 5 feet 8 inches tall, weighs 190 pounds, and is known for his feats of strength.

WORK SAYS SMITH MAY GET AS MANY VOTES AS DAVIS

By the Associated Press.
SALT LAKE CITY, Utah, Aug. 15.—Satisfaction with the progress of the Republican presidential campaign was expressed by Dr. Hubert Work, chairman of the Republican National Campaign Committee, when he arrived here last night from San Francisco on his way to Washington.

Conferring with a group of Utah party leaders, Dr. Work said that the National Committee was better organized now than at any similar date in any previous campaign.

Declaring that there could be but one outcome to the election in November, the national chairman predicted that Gov. Smith "would probably receive as many electoral votes as John W. Davis got four years ago." He expressed the opinion that the Republicans would get a majority of the votes that went to the third party movement in the last campaign.

CARMAN LEAVES \$60,000

By the Associated Press.
SAN FRANCISCO, Aug. 15.—The will of John Quinn, 72 years old, veteran street car conductor, who died Aug. 5 and left a \$60,000 estate, provided his debtors need repay only 75 per cent of their debts.

TEMPERATURE
OF THE ROAST

By Hannah Wing.

NOT only oven temperature, but the actual temperature inside the roast is necessary to make certain that the roast will be at that degree of doneness which the family likes. To make accurate cooking of meat possible, a short thermometer has been devised which may be thrust well into the center of the roast and read above the surface of the meat.

Beef is rare when the temperature of the roast registers 130 degrees to 150 degrees F.; medium between 150 degrees and 170 degrees and well done at 170 degrees F.

Place the meat in a hot oven (500 degrees to 525 degrees F.) Sear the meat for 20 minutes at this temperature and then reduce to about 350 degrees F. and continue cooking until the thermometer in the meat reads 140 degrees F. for a rare roast, 160 degrees for a medium roast or 180 degrees F. for a well-done roast.

A three-rib roast will probably require 15 minutes to the pound to be rare, 15 minutes to the pound to be medium and 20 to 22 minutes to the pound to be well done.

The less tender and less expensive cuts of beef can be made into attractive and delicious dishes when they are cooked properly. The general method of cooking less tender cuts differs from the method for tender cuts in the steps which must be taken to make tough meat tender. Heat, moisture and slow cooking help to accomplish the desired result. First, sear the meat, usually in fat, until it is browned. After browning, reduce the cooking temperature, add a small quantity of water, and cover the meat tightly. Cook slowly until tender. The small quantity of water which is added in cooking extracts some flavor from the meat and makes good gravy.

Green Pea Soup.

Cover 1 quart of shelled peas and 1 chopped onion with 3 pints of boiling water and cook until peas are tender. Pour off water, but save it. Mash peas, then add water again and put all through a sieve. Return to saucepan, add 1 tablespoon flour and 2 tablespoons butter blended together, 1 teaspoon salt, 1/2 teaspoon pepper. Now add slowly 1 quart of scalded milk. Cook for 10 minutes, stirring constantly.

Setting a new high record, the traffic through the Panama Canal in the last fiscal year was five times that of 12 years ago.

Shoes Should Match the Stockings, Not the Dress, Says Perugia

Simplicity In Design Is Favored and Eccentricity, Excessive Decorations and Clashing Colors Condemned by Paris Shoemaker.

By ANDRE PERUGIA.

PARIS.—GREAT many people thought when I came to establish a Maison de Chaussures in Paris from Nice that I was doomed to failure. They said: "Perugia, with his eyes accustomed to the sunlight of the South will never fall in line with Parisian taste."

It is true that at first I made elaborate shoes, but it was in order to show it was possible to make fanciful shoes that still showed the beauty of the natural line of the foot. A few years ago shoemakers of high standing were making shoes of such eccentric designs that it was a shock to see women wearing them in the street.

This fashion has changed. The utmost simplicity prevails in shoe fashions. Beautiful shoes are those which give a lovely arch to the instep, shoes that are molded onto the foot like a glove, decorated with only the finest strapping or motif that in no way detracts from the general simplicity of line.

In my opinion, dress fashions bear absolutely no relation to shoes. There are many people who will disagree with me, for one is constantly hearing women told to study the "whole ensemble," to choose their shoes with the dress they are to accompany.

According to my own views, the shoe matching the flesh-colored stockings is the perfect shoe. The stocking should match the general color of the skin as far as possible, and there are many tints ranging from pale flesh to the deep sunburn shade of which one sees so much in the summer.

The shoe plays a different role to the dress. The dress is supple and flows gracefully on the figure. But the shoe forms a part of the mannequin displaying the dress. It is stiff. While dresses are short, even only short in the front, the shoe that does not melt into the general skin color of the mannequin shocks artistic taste and forms an inharmonious note in the general ensemble.

DO not mean that the shoe may not be a shade darker than the stocking. This is quite in keeping with good taste in shoes. But it should be chosen in relation to the stocking and not to match the dress.

When a woman wears shoes to match her dress, they make a jarring note with the flesh-colored stocking in between. They also detract from her height. Even with a black evening gown a woman will look taller if she wears flesh-colored shoes than if she wears black ones.

In my own house, when a woman is ordering shoes for the first time, the form is made from a flesh-colored model that encases her foot like a glove, made of course, absolutely plain, without decoration of any kind. Many women of indisputable taste find it so pleasing when they order copies of this trial shoe because they realize it shows off the shape of their foot as nothing else could.

They are right, for the less the shoe is perceptible the more perfect it is. I should be glad to see shoes reduced to a sole and a heel, with as little covering to the foot itself as possible. The heel is important, for by force of long habit women have reached a stage where they can no longer walk gracefully with low heels. Certain muscles have weakened through lack of use. The normal heel essential to the modern woman is from five to five and three-quarter centimeters high.

One of the most interesting developments in shoe fashions is the definite establishment of reptile skins, which are making patent leather drop into the background and are really far more popular than kid. This fashion will undoubtedly last, for practicality is its raison d'être. A shoe made of reptile skin outlasts three or four pairs made of any other leather. It keeps its shape to the end, and the leather never looks shabby. The Calcutta skins are the most practical and popular, for having no markings, they can be dyed any color and are therefore suitable for any occasion.

PATENT leather on the other hand, is nearly dead. It was smart for a very long time because it is so easily cleaned. Its great disadvantage, however, is its extremely perishable quality. One scratch and it loses all chic. Also, you never know when it is going to crack.

For the evening I prefer satin to any other material. Some very charming shoes are made of navy kid, and in the palest pastel tints it is both smart and suitable. I do not like to see it, however, in the darker shades. For the evening shoe I am even more in favor of matching the stocking instead of the dress than in the case of day shoes. In evening dress a woman is more feminine, her gown is more ephemeral, the general effect is infinitely more charming if her slippers match the color of her skin.

Nothing looks better for evening wear than a delicately cut sandal on very simple lines with the minimum of decoration. Nothing should spoil the beautiful natural line of the foot when dancing. Even women the shape

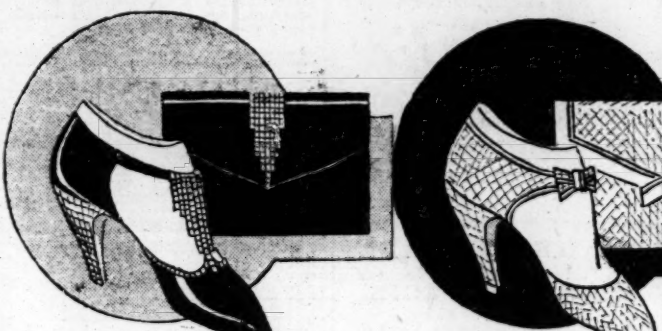

Two versions of the pump shoe, suitable for morning or afternoon wear. The model on the left is of beige kid strapped with a darker shade and finished with a buckle of enameled leather. The second model is of navy blue kid with appliques of blue and white.

Typical examples of the favorite Perugia evening sandal. That on the left is of red satin. The becoming narrow strap over the instep is of silver and the folded front strap of silver and gold. The other sandal, of pale blue kid, has a curved strap stitched with silver.

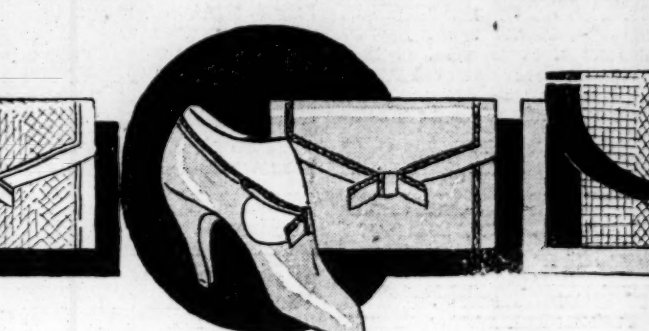

A flat-heeled beach sandal of crepe de chine made in blue or green or any color that harmonizes with the bathing suit. The white antelope pump slipper strapped with tan kid is a popular seaside model with those who do not care for the low heel.

A smart evening sandal of black satin with heel and motif of diamond. The same motif is repeated on the evening bag to match.

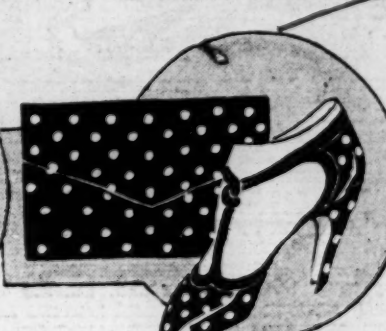

A beige lizard shoe with an original bow fastening outlined with beige kid. Beige kid borders the bag of beige lizard, which has the same bow motif.

Mahogany calf with a narrow border of lizard is used for this sports shoe and bag, an extremely practical combination.

Gray lizard and black patent leather are attractively combined to form this bag and pump slipper, each having a twisted motif of the two leathers.

The popular polka dot is interpreted by Perugia in white kid that appears through the circular perforations of a black patent-leather sandal, with bag to match.

BEAUTIFY YOUR SHOULDERS

By Anne Jordan.

EVERY woman wants pretty shoulders. Often they don't get them from the first, but make so much of the ones they did happen to draw that their shoulders pass for lovely. And much credit is due to these thoughtful women, who instead of sitting down, bawling the lack of natural assets, jump in and beautify what they've got.

One of the perils of being slim is that the shoulders are so apt to be hollow. The least reducing usually shows around your neck bones. So if you're a little too rolling, and start to reduce, be sure and take an exercise each day that will keep your neck bones from becoming prominent.

To keep your shoulders lovely, learn to hold them correctly. Start by crimping them in at the sides. Then push them back until they lie flat in the back. In a chair and feel them press level with the back of the chair as you do this. You will probably have to move about to let those big bones in the back settle down into flatness. The next step is to elevate the chest. Bring the chest up so the bones at the base of the neck get busy and can't stand up and say "howdy." And last of all, drop your shoulders down, still held taut like this, until the tops are sloping again, while the back is flat. The chest is elevated. Now you are in shape to start an exercise for the shoulder development.

Stand erect, the back straight but flexible. The waist should not bend in the center except a mere shadow of a curve. The stomach should be held in and the legs straight from the hips down, so the body is balanced evenly above the feet. The arms should hang down at each side, held firmly, with the hands doubled into fists. And now slowly raise the shoulders, arms still down, bring the shoulder blades toward the front, up, back as far as they can go, and drop them again to the natural position at either side. Keep doing this (it is not in the least tiring) for about 10 times, and after you've gotten used to it, go faster all the time, until it becomes a mere revolving of the shoulder blades.

Then bring the arms up, straight ahead, level with the shoulders, then up, stretching them as high over the head as you can get them, then back as far as you can throw them and again to the sides. This exercise soon becomes a matter of routine also, and can be accomplished in less time than it takes to write it. It can be performed easily 20 times without tiring.

If the throat and neck still look scrawny, massage them in all the hollow spaces with cocoa butter, using a rapid circular motion of the finger tips, and always beginning at the front center and working toward the back.

Correct Soaking of Clothes.

Never soak soiled clothes over night in hot water. Soak them in cold water in which a handful of borax has been dissolved. Then in the morning when you are ready to wash use the hot water and suds. This method will remove all dirt and make the clothes beautifully white.

How to Remove
Iron Rust Stains

IRON rust stains are often caused by rusty clothes wringers or wash lines. Insufficient rinsing when using bluing of the Prussian blue variety (liquid bluing is mostly of this type) is also responsible for many iron rust stains.

Sprinkling the stain with salt and lemon juice and exposing to the sun is a well-known removal agent. For delicate fabrics spread the stained fabric over a saucypan containing boiling water and squeeze lemon juice on the stain. After a few minutes rinse the fabric and repeat the process. Continue until stain disappears.

A mixture of lemon juice, soap, salt and starch of the consistency of paste applied and the stain exposed to the sun gives quicker results.

Tomato juice or boiling rhubarb juice will remove rust stains. In either case rinse thoroughly. Ammonia has been found to be an effective remover. Moisten stain with the ammonia, then use salts

of lemon or oxalic acid and rinse in boiling water. One woman removes iron rust from white goods most effectively by boiling the article in water containing cream of tartar—three tablespoonsful to a gallon of water.

The reason that bags have hitherto been so limited in design is that they were dependent upon the frame of the fastener, which is manufactured by an independent trade. A bag maker wanting to design a new bag was always given the same fastener, which allowed him absolutely no scope for originality of conception. When I started making bags I immediately saw that the fastener was the whole secret, and I designed special fasteners which have resulted in the new and amusing shapes.

I am convinced that the flesh-tinted beige stocking will be with us for years to come. I have never been a believer in the various prophecies for darker stockings that have been rumored from time to time.

The one golden rule for every woman to remember when she is ordering her shoes is that the foot is part of a solid mannequin and the more inconspicuous the shoes the better the general effect of her dress will be.

Luscious
mayonnaise with the flavor blended inParis says More White
—so Smart Women
use Whitex

...no wonder smart women everywhere are wearing more white this summer. Paris has added this charming mode to the summer wardrobe and Whitex makes it so practical—so delightfully easy to follow.

...for Whitex keeps white things white—or restores their whiteness if they have yellowed. White woolen sports coats, sweaters, skirts—white silk dresses, scarves and stockings stay snowy white—like new—in spite of sun and frequent laundering.

...women use it, too, on white cotton and linen fabrics, instead of ordinary bluing. For Whitex gives wonderfully better results and is so much simpler to use. Just sprinkle a little Whitex in the rinsing water. There is nothing else like Whitex on the market. Be sure to take a supply with you on your vacation.

HELLMANN'S Blue Ribbon

Mayonnaise lifts up the whole tone of your salad with a smooth velvety taste.

It is a true mayonnaise, perfectly blended in accordance with an old and treasured recipe.

Fresh eggs, golden salad oil and fragrant spices are thoroughly beaten until each tiny drop of oil has "taken up" its portion of the egg yolk. Each delicate bit of sea-

soning is whipped about until the mayonnaise is shot through with a flavor delicate as sunshine.

Some serve it just as it comes from the jar. Others, according to their fancy, add condiments from their pantry shelves, chopped pickles or pimientos, minced olives, honey, nuts or ginger.

At all grocers'. The popular 1/2 pint size—25c. Other sizes 3/4 oz.; pint and quart jars.

VOL. 80. NO. 344.

YOUTH KILLED WHEN PLANE OF STUDENT FLYER FALLS

Sidney Robnett, 15, Who Went to Flying Field on Bicycle, Loses Life in Crash.

CRAFT WRECKED ON FARM NEAR AIRPORT

Alfred J. Kuechenmeister, at Controls, and Delbert Flanders Taken Unconscious to Hospital.

Crashing from a height of 400 feet, an airplane piloted by a student pilot was wrecked in a level field near Lambert-St. Louis Field this afternoon, killing one of the two passengers, and seriously injuring the pilot and the other passenger.

Sidney Robnett, 15 years old, of 5558 Maple avenue, was killed. He was the son of Mrs. Noah Robnett. He went to the flying field with a party of youths on bicycles. He was a student of Soldan High School.

Alfred J. Kuechenmeister, 25 years old, who held a Federal license as student pilot, was in charge of the Waco biplane. He and his injured passenger, Delbert Flanders, 21, of 4138 Ashland avenue, were taken from the wreckage unconscious and were conveyed to Missouri Baptist Sanitarium. Their condition is critical.

G. E. Scott, manager of Lambert Field, who saw the accident, said it was due to the pilot's attempt to make too steep an ascent. This caused the plane to drop into a tail spin, and because of the pilot's inexperience and the nearness of the earth, this condition was not remedied. The biplane, where the plane struck, nose first, was one in which a skilled pilot could have made a safe landing if he had any control of the plane.

The motor continued to function properly, and indications are that the engine was still turning over when the plane struck.

Under Federal regulations, student pilots are not permitted to carry passengers in interstate flights. The flying field management has no authority to keep them from taking passengers, so long as they do not accept money from them. Student pilots frequently take their friends for rides. The two passengers riding with Kuechenmeister were in a forward cockpit.

DEATH SENTENCE FOR WIDOW OF EXECUTED MAN AFFIRMED

Georgia Supreme Court Rules Mrs. Ula Thompson Must Die for Murder.

ATLANTA, Ga., Aug. 15.—Mrs. Ula Elrod Thompson, young Tennessee mountain woman, whose "minute confession" failed to save her husband from the electric chair recently must die for the same crime. The State Supreme Court today affirmed the death sentence passed on her for complicity in the murder of Coleman Osborne, Chatsworth storekeeper, a year ago.

Just before her husband was to be electrocuted, Mrs. Thompson signed a purported confession, taking all blame for the killing of Osborne upon her self and a "lover," Gov. Hardman, after investigation, refused to intervene and Thompson and a Negro, Jim Moss, went to the chair for the crime. Osborne was killed after he was called from his home to enter his store the night of Aug. 5, 1927.

TO CROSS SEA IN MOTOR BOAT

Three Young Men Leave New York for Spain.

NEW YORK, Aug. 15.—The 32-foot motor boat Banfield, with three men aboard, chugged away from the Columbia Yacht Club pier, Hudson River, this afternoon on an attempted trip to Spain, 2200 miles away. Her crew comprised George V. Brothers, 25 years old, owner; John R. Brothers, 21, and Charles A. Banfield, 23. The Brothers are sons of Assistant District Attorney George N. Brothers.

The Banfield, powered with a 35-horsepower motor, will be pointed first for Bermuda, where her 300-gallon gasoline tank will be refilled for the trip to Fayal, the Azores. From Fayal the boat will make for Lisbon, Portugal, and Santander, Spain. After a coastwise tour of the Mediterranean they plan to ship their craft back to New York.
